MESSAGE FROM THE SECRETARY

I congratulate the Department of Consumer Affairs (DCA) and its thousands of dedicated staff statewide on the achievements detailed in this *Fiscal Year 2021–22 Annual Report*.

DCA is a cornerstone of the California Business, Consumer Services and Housing Agency (BCSH) and its mission to achieve a thriving and equitable California where everyone has access to safe and affordable housing, consumers are protected, and civil rights are safeguarded.

The Department and its boards and bureaus have kept Californians safe, healthy, and protected during some of our state's most challenging times. Through unprecedented actions, DCA made sure the professionals who assist Californians in nearly all aspects of their lives could continue to do so while upholding our state's longstanding consumer-protection commitment.

Through reinvention and innovation initiated during the pandemic, DCA vigilantly served California's 40 million consumers through oversight, enforcement, and licensure of hundreds of professions and occupations: from nurses and doctors, to security guards and contractors.

In our Agency—as in our state itself—our strength is our people. As a diverse and talented statewide team of more than 6,000 individuals, BCSH employees work to improve the lives of families,

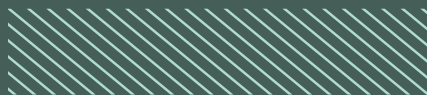

neighbors, and communities. Together, we are creating a true California for all.

Following the lead of Governor Gavin Newsom, DCA and BCSH are committed to diversity, equity, and inclusion. Governor Newsom's recent executive order to take action on advancing equity and tackling disparities has been embraced at both DCA and BCSH. We will continue our efforts to develop equity action plans and steps to embed equity in strategic plans, policies, and programs.

I am grateful to be a part of this *Fiscal Year 2021–22 Annual Report* detailing DCA's impact on California consumers and licensees each and every day. These accomplishments are the direct result of the tireless dedication of every team member at every level. You have my sincerest thanks.

LOURDES CASTRO RAMÍREZ, M.A., SECRETARY
BUSINESS, CONSUMER SERVICES AND HOUSING AGENCY

MESSAGE FROM THE DIRECTOR

For nearly 150 years, California—the Golden State—has served as the nation’s gold standard for consumer protection. I am pleased to present the Department of Consumer Affairs *Fiscal Year 2021–22 Annual Report* and highlight successes achieved while carrying out the consumer-protection mission.

This year, in addition to the data in this report, our accomplishments include:

- **Streamlining Services**—DCA inaugurated the Enlighten Licensing Project to provide the most effective and efficient licensing services possible. With the first project completed in partnership with the Board of Registered Nursing, in-house experts identified best practices to streamline the Board’s licensing activities, while also providing benefits to other boards and bureaus, applicants, and licensees. U.S. military members and their families plus refugees and asylees have benefitted from expedited licensure processes. Pandemic-enacted waivers were key to supporting boards, bureaus, and professionals while maintaining consumer protection as California emerged from the pandemic.
- **Strengthening Engagement**—By pairing our commitment to engagement and transparency with cutting-edge technology, Californians can participate in the consumer-protection process wherever they are through livestreamed meetings, enhanced social media and e-communications, online trainings and events, educational videos, expanded multilingual resources, and much more.
- **Upholding Diversity, Equity, and Inclusion**—DCA is pledged to protect Californians and, as a member of the Business, Consumer Services and Housing Agency family, DCA embraces the Agency’s mission to support all people and strengthen all communities. DCA is taking actionable steps to embed diversity, equity, and inclusion into the Department’s framework and strategy. DCA is steadfast in its commitment to diversity, equity, and inclusion through its strategic goals and daily work to ensure all Californians can live in healthy, protected, and thriving communities.
- **Creating the Future**—Drawing on the knowledge and vision of employees across all levels, DCA authored and adopted its 2022–27 Strategic Plan. The Department and its boards and bureaus will build upon California’s legacy of leadership and service by focusing on goals in six significant areas: policy and advocacy, communications, organizational effectiveness and services, technology, enforcement, and licensing.

Throughout my long consumer-protection career, I have always been inspired by the passion, innovation, and dedication of those around me. I have never been prouder of our Department, our boards and bureaus, our employees, our Agency, and our state than I am in this moment.

KIMBERLY KIRCHMEYER, DIRECTOR
DEPARTMENT OF CONSUMER AFFAIRS

OUR MISSION

Provide outstanding support services, oversight, and innovative solutions to boards and bureaus that regulate California professionals and vocations so that through this partnership all Californians are informed, empowered, and protected.

OUR VISION

Together, protecting California consumers.

OUR VALUES

Accountability	Diversity	Leadership
Communication	Equity	Teamwork
Consumer Protection	Inclusion	Transparency
	Innovation	Trust
	Integrity	

SUPPORT SERVICES

The boards, bureaus, and other entities that comprise DCA are supported by a dedicated and highly skilled staff of legal, technical, and administrative professionals. This team provides a wide range of support services, including human resources, information technology, investigations, communications, professional examinations, training, strategic planning, fiscal operations, and more through various offices and divisions. Here is an overview:

THE OFFICE OF ADMINISTRATIVE SERVICES provides business, personnel, budget, and accounting services. It consists of Business Services, Human Resources, and Fiscal Operations. Business Services ensures that DCA entities promote sound business decisions and practices in contracting and purchasing goods and services. It also manages DCA's facilities, vehicle fleet, emergency response, mailroom, and records services. Human Resources provides personnel support for DCA employees. Fiscal Operations provides budget, accounting, and central cashiering services.

THE COMMUNICATIONS DIVISION consists of the Office of Public Affairs (OPA); the Office of Publications, Design and Editing (PDE); and Digital Print Services (DPS). OPA creates and executes communications plans, develops strategic messaging, assists with content creation, provides information to consumers and licensees, responds to media inquiries, and distributes information to the media. OPA's videographers livestream public meetings and create visual content including public service announcements and informational videos. PDE designs, edits, and produces consumer and licensee publications, reports, external and internal newsletters, graphics, and many other visual assets. PDE produces and

publishes the "Did You Know?" monthly online newsletter for employees and DCA's quarterly consumer magazine, Consumer Connection. DPS provides full in-house print shop services, including black-and-white and color digital printing, copying, bindery, and other services to all of DCA. In addition to printing materials created by PDE, DPS produces projects directly from DCA licensing entities and support-system programs, including licensee notices, reports, training books, business cards, posters, postcards, and booklets.

THE CONSUMER INFORMATION CENTER (CIC) is DCA's information resource center for consumers and licensees. Through its Call Center and Correspondence Unit, CIC provides consumers, license applicants, and licensees with user-friendly information, or identifies the government agency or community organization that can best address their needs. CIC phone agents answer calls from consumers, applicants, and licensees via DCA's toll-free number. Correspondence Unit staff respond to emails and letters sent to DCA and coordinates with boards, bureaus, committees, and programs on escalated complaints received from the Business, Consumer Services and Housing Agency and the Governor's Office.

THE INTERNAL AUDIT OFFICE examines and evaluates the adequacy and effectiveness of DCA governance, risk management, and internal control processes that are in place to achieve the mission, vision, and values of the Department. This includes performing audits on DCA's internal operations to ensure effective and efficient operations; compliance with state and federal rules, laws, and regulations; and the reliability of DCA's financial reports. Services include acting as the liaison for all audits and reviews conducted by federal and state agencies, coordinating all entrance and exit conferences, keeping impacted DCA management staff apprised of audit issues, coordinating all DCA responses to audit findings, and tracking the status of all recommendations until the reported findings have been resolved.

THE EQUAL EMPLOYMENT OPPORTUNITY OFFICE (EEO) serves all DCA employees, applicants, licensees, and consumers by promoting civil rights laws that prohibit discrimination and require public agencies to allow people to work and advance based on merit, ability, and potential without regard to their protected characteristics. EEO is charged with increasing the employment of people with disabilities at DCA and preventing and eliminating discrimination through policy implementation, training, education, and outreach. Its areas of responsibility include coordinating the DCA Bilingual Services Program, Disability Advisory Committee, Employee Mediation Program, Upward Mobility Program, and sexual harassment prevention training. EEO serves as DCA's Americans with Disabilities Act coordinator, investigates allegations of discrimination, facilitates sign language and real-time captioning requests, and conducts the annual Workforce Analysis.

THE OFFICE OF INFORMATION SERVICES (OIS) directs and manages information technology (IT) for DCA. It consists of Application Services, Enterprise Technology Services, Infrastructure Services, Client IT Support Services, Enterprise Project Services, and the Office of Information Security. Application Services maintains and develops the core licensing and enforcement platforms in DCA's portfolio, including the Consumer Affairs System, the Applicant Tracking System, BreEZe, and inLumon. Enterprise Technology Services maintains and supports DCA's wide area network infrastructure, serving more than 30 offices statewide, as well as more than 50 internet and intranet sites. Infrastructure Services maintains the network, cloud, operational security, and telecommunication services. Client IT Support Services provides Service Desk and Client Device Services to all programs within DCA for end-user IT engagement.

Enterprise Project Services provides project management assistance, controls agency liaison services, oversees the OIS change management and release process, and is implementing IT governance. The Office of Information Security establishes the IT security and data privacy policies, maintains the business continuity planning process, investigates IT security breaches, and acts as liaison to the California Department of Technology in matters related to the Department's IT security.

THE ORGANIZATIONAL IMPROVEMENT OFFICE (OIO) collaborates with DCA entities and divisions to identify opportunities for program improvement through business analysis, maximizing the utilization of existing resources, and improving productivity and quality of services. It provides the following services—business process documentation and mapping, value stream analysis (process redesign), development of system requirements for IT projects, support for special projects, and organizational change management. OIO supports the journey of a unit through the transition phases of change, helping staff adopt a positive mindset toward it with the help of change management strategies.

THE DIVISION OF INVESTIGATION (DOI) is the law enforcement and investigative branch of DCA. DOI staff provide objective investigations regarding allegations of misconduct by licensees of DCA entities. DOI helps to protect the health, safety, and welfare of California consumers by conducting investigations and referring cases for administrative and/or criminal charges against subject licensees or unlicensed individuals on behalf of DCA entities. DOI field investigations frequently involve allegations of the illegal use and theft of drugs, sexual misconduct, quality-of-care issues, impairment, and unlicensed activity. DOI is composed of three units. The Health Quality Investigation Unit provides investigative services to the Medical Board of California, the Physician Assistant Board, the Podiatric Medical Board of California, and the Osteopathic Medical Board of California. The Investigation and Enforcement Unit provides investigative services for all the other boards and bureaus within DCA. The Special Operations Unit (SOU) is a specialized law enforcement unit within DOI that provides investigative services, training, and program management services for DOI and DCA. SOU conducts internal affairs investigations on behalf of DCA; background investigations of board, bureau, DOI, and DCA staff; investigations pursuant to DCA's Workplace Violence Prevention Policy; and provides oversight of the Infraction Citation Authority Program and the Criminal Offender Record Information clearance system.

THE LEGAL AFFAIRS DIVISION serves as in-house counsel for the director, executive staff, boards, bureaus, and other entities within DCA. The team of attorneys provide legal analysis and opinions on laws, issues, proposed legislation, regulations, government contracts, employer-employee matters, the Open Meeting Act, the Public Records Act, and the Information Practices Act. This division also represents DCA before the State Personnel Board and other administrative tribunals, provides small claims advice, defends clients in depositions, and appears at hundreds of public meetings annually.

THE DIVISION OF LEGISLATIVE AFFAIRS serves as DCA's resource on legislative matters, representing DCA's positions before the Legislature. This division monitors and analyzes legislative bills on consumer issues and provides legislative recommendations and technical assistance to DCA, the Business, Consumer Services and Housing Agency, and the Governor's Office. The division also serves as the liaison for the Legislature in handling constituent issues affecting all DCA entities. The division hosts legislative roundtables to provide an open forum to discuss all aspects of legislation, including fiscal, information technology, and implementation impacts among DCA's various boards and bureaus.

THE OFFICE OF PROFESSIONAL EXAMINATION SERVICES (OPES) provides psychometric consulting services for occupational licensure examination programs. OPES services include occupational analysis, examination development (item writing and review), standard setting, program evaluation, and statistical analysis of examination performance. OPES follows accepted professional guidelines and technical standards to ensure that licensing examinations are fair, valid, and legally defensible. In addition to servicing 40–50 intra-agency contracts with DCA entities, OPES also oversees the master contract for examination administration at computer-based testing centers throughout the United States.

SOLID TRAINING AND PLANNING SOLUTIONS (SOLID) supports the development of all DCA employees through the design, delivery, evaluation, and administration of training and education programs. Its mission is to develop and manage a centralized program for training, education, and human resources development that ensures a skilled workforce that can meet DCA's strategic objectives. In addition, SOLID provides strategic planning, facilitation, virtual meeting moderation, and survey and consulting services, allowing DCA programs to manage their business proactively and focus their resources effectively to achieve their goals.

BOARD AND BUREAU RELATIONS (BBR) is the liaison between the DCA Executive Office and its boards, bureaus, and other entities. BBR provides support services for appointed board members, executive officers, and bureau chiefs by connecting them with the appropriate DCA resources. BBR is responsible for coordinating DCA executive officer and board member onboarding, procedures, and trainings, including DCA's Board Member Orientation Training. It provides tracking and analysis of all board meeting content and acts as the rapid response team for troubleshooting urgent issues across all DCA entities. Additionally, it collaborates with entities on external stakeholder engagement, and maintains departmental data on board and committee members' required training compliance and appointments. BBR also serves as liaison between DCA entities, the Governor's Office, legislative appointing authorities, and the Business, Consumer Services and Housing Agency.

LEGISLATIVE SUMMARIES

DCA-WIDE LEGISLATION

SB 189 (Committee on Budget and Fiscal Review, Chapter 48, Statutes of 2022) State Government

This budget bill, among other things, authorizes state entities to hold public meetings, subject to specified notice and accessibility requirements, through teleconferencing. No physical locations need to be made available to the public for such meetings if members of the public are allowed to observe and address the meetings electronically. These provisions are scheduled to sunset July 1, 2023.

SB 731 (Durazo, Chapter 814, Statutes of 2022) Criminal Records: Relief

This bill, among other provisions, expands the types of arrest records that are eligible to be automatically sealed to include more types of felonies under specified circumstances. This bill also allows certain felony convictions that resulted in incarcerations to be automatically sealed as long as the individual has completed their sentence and has not been convicted of a new felony within four years. It also expands the date range for which arrests and convictions are eligible to be automatically sealed. These provisions will become operative on July 1, 2023.

SB 1237 (Newman, Chapter 386, Statutes of 2022) Licenses: Military Service

This bill clarifies that military members on active duty with the California National Guard or members of the military on non-temporary assignments stationed outside California are eligible for a waiver of license renewal fees, continuing education requirements, and other license renewal requirements.

SB 1443 (Roth, Chapter 625, Statutes of 2022) Professions And Vocations

This bill extends the sunset date for the following boards and bureaus from January 1, 2024 to January 1, 2025: Dental Board of California; California Board of Accountancy; California Architects Board; Landscape Architects Technical Committee; Board for Professional Engineers, Land Surveyors, and Geologists; Contractors State License Board; Bureau of Security and Investigative Services; Cemetery and Funeral Bureau; Court Reporters Board of California; and the California State Athletic Commission. The bill also includes fee increases for the Cemetery and Funeral Bureau and makes technical changes for various other entities.

SB 1495 (Committee on Business, Professions and Economic Development, Chapter 511, Statutes of 2022) Professions and Vocations

This is the omnibus bill for the Senate Committee on Business, Professions and Economic Development. It updates the name of the Office of Statewide Health Planning and Development to the: Department of Health Care Access and Information; removes gendered language throughout the Business and Professions Code; and incorporates legislative changes in the Medical Practice Act, Pharmacy Law, Licensed Marriage and Family Therapist Act, Dental Practice Act, Physician Assistant Practice Act, Veterinary Medicine Practice Act, Clinical Social Worker Practice Act, Professional Fiduciaries Act, Contractors State License Law, Collateral Recovery Act, Private Investigator Act, Private Security Services Act, Geologist and Geophysicist Act, and the Automotive Repair Act.

HEALING ARTS LEGISLATION*

AB 657 (Cooper, Chapter 560, Statutes of 2022) Healing Arts: Expedited Licensure Process: Applicants Providing Abortion Services

This bill requires the Medical Board of California, Osteopathic Medical Board of California, Board of Registered Nursing, and the Physician Assistant Board to expedite the licensure process for applicants who intend to provide abortion services. Applicants must provide specified documentation demonstrating their intent to perform such services.

AB 1102 (Low, Chapter 684, Statutes of 2022) Telephone Medical Advice Services

This bill clarifies that a telephone medical advice service is required to ensure all health care professionals who provide telephone medical advice services, including from an out-of-state location, are operating consistent with the laws governing their respective state licenses. It also specifies that a telephone medical advice service is required to comply with directions and requests for information made by healing arts licensing boards. This bill eliminates a requirement that these services notify the Department of any changes to information such as their name, address, or telephone number.

AB 1120 (Irwin, Chapter 685, Statutes of 2022) Clinical Laboratories: Blood Withdrawal

This bill allows a certified phlebotomy technician to perform a blood draw through a peripheral venous catheter under the general supervision of a physician or registered nurse.

AB 2626 (Calderon, Chapter 565, Statutes of 2022) Medical Board of California: Licensee Discipline: Abortion

This bill prohibits the Medical Board of California, Osteopathic Medical Board of California, Board of Registered Nursing, and Physician Assistant Board from imposing discipline on a license or denying a license application for certain licensees solely for performing an abortion that is legal under California law.

* Healing arts legislation refers to the Acupuncture Board, Board of Behavioral Sciences, Board of Chiropractic Examiners, Dental Board of California, Dental Hygiene Board of California, Medical Board of California, Naturopathic Medicine Committee, California Board of Occupational Therapy, California State Board of Optometry, Osteopathic Medical Board of California, California State Board of Pharmacy, Physical Therapy Board of California, Physician Assistant Board, Podiatric Medical Board of California, Board of Psychology, Board of Registered Nursing, Respiratory Care Board, Speech-Language Pathology and Audiology and Hearing Aid Dispensers Board, Veterinary Medical Board, and Board of Vocational Nursing and Psychiatric Technicians.

OVERVIEW OF REPORTED INFORMATION

In this *Annual Report*, each DCA entity notes its accomplishments, new laws or regulations, and statistical information extending through the 2021–22 fiscal year. Entities vary in the data they report because they are governed by different laws, and therefore, not all categories of data apply to all entities. If a category does not apply, the table will indicate “N/A.”, if the entire table does not apply, it has been removed. Below is an overview of the data reported along with examples.

STAFF

The number of civil service and exempt positions approved in the state budget (including vacancies and temporary help). Exempt employees are executive-level personnel (usually an executive officer or a bureau chief) appointed by the board, the DCA director, or the governor.

LICENSES, REGISTRATIONS, CERTIFICATES, AND PERMITS

The total number of licenses, permits, and certificates. Totals for each type of license, permit, and certificate can be found in the “Licensing Population by Type” table.

BOARD/BUREAU MEMBERSHIP

Boards, committees, and commissions are semiautonomous entities. Members of a board are usually split between people representing the profession or industry and people representing the public. Board members are appointed by the governor, the Senate Rules Committee, or the speaker of the Assembly. The number of board members, who they represent, and who appoints them is set in state law. Membership on a DCA board is not a salaried position. Those who serve receive per diem and travel expenses to attend meetings.

Bureaus and programs are under the direct control of DCA, but may have an advisory committee made up of professionals and public members.

BOARD/BUREAU LEADERSHIP

Board and bureau leadership, including management title, name, and email address.

LAWS AND REGULATIONS

The laws and regulations governing the board, bureau, committee, program, or commission.

Example:

Licenses and regulates certified public accountants and public accountancy firms.

www.cba.ca.gov

Staff: 98.9 civil servant positions, 1 exempt

Licenses, Registrations, Certificates, and Permits: 75,171

Board Membership: 8 public representatives, 7 licensees

Board Leadership:

Patti Bowers

Deanne Pearce

Executive Officer

Assistant Executive Officer

patti.bowers@cba.ca.gov deanne.pearce@cba.ca.gov

Laws and Regulations:

Business and Professions Code §§ 5000–5158

California Code of Regulations, Division 1, title 16, §§ 1–99.2

Sunset Review:

Last review: 2019 | Next review: 2024

SUNSET REVIEW

All boards and bureaus undergo a sunset process before the Legislature. This section indicates the date of the last review and future scheduled appearance. Through the sunset hearing, the Legislature evaluates the need, effectiveness, and performance of the board, bureau, committee, program, or commission.

RECIPROCITY

Reciprocity is defined as granting a license to an individual with no disciplinary action who is licensed in the same profession in another state by requiring proof of licensure from that state (without requiring additional steps or licensure requirements such as examinations or documentation beyond licensure). Some DCA boards and bureaus allow reciprocity.

ACCOMPLISHMENTS

A written summary of accomplishments throughout the fiscal year focusing on consumer protection, licensing and enforcement updates, and communications and outreach.

NEW LEGISLATION

Newly enacted legislation that affects the board/bureau, consumers, licensees, and/or applicants.

LICENSE REQUIREMENTS

Requirements for licensure in the state of California.

SUMMARY OF ENFORCEMENT ACTIVITY

Complaints—Intake

Total number of complaints received, closed without referral for investigation, referred for investigation, and pending at the close of the fiscal year. This is a comprehensive overview of the intake process and lifecycle of a complaint at the beginning of the process. These include complaints from the public, government, law enforcement, licensed professional groups, internal staff, others, or anonymous sources. DCA defines a complaint as “an allegation or inquiry from any source indicating a probable violation of any law, rule, or order of any regulatory agency, including violations of the Business and Professions Code relating to businesses and professions licensed by any entity of the Department of Consumer Affairs.”

COMPLAINTS—INTAKE	
109	RECEIVED
0	CLOSED WITHOUT REFERRAL FOR INVESTIGATION
141	REFERRED FOR INVESTIGATION
0	PENDING

Conviction/Arrest Notification Complaints

Total number of convictions, applicant-reported convictions, or subsequent arrests received, closed without referral for investigation, referred for investigation, and pending at the close of the fiscal year.

CONVICTION/ARREST NOTIFICATION COMPLAINTS	
35	RECEIVED
0	CLOSED WITHOUT REFERRAL FOR INVESTIGATION
37	REFERRED FOR INVESTIGATION
0	PENDING

Inspections (If Applicable)

Total number of inspections conducted, and citations issued as a result of an inspection. This count includes initial, routine, complaint-driven, and follow-up inspections.

INSPECTIONS	
5,600	CONDUCTED
5,749	CITATIONS ISSUED

Investigations

Total number of investigations opened, closed, and pending at the end of the fiscal year. An investigation is defined as the collection and verification of facts to determine jurisdiction and potential violations of law. Investigations begin upon assignment. The total count of investigations includes both desk and field investigations. Some cases may have been opened in a prior year.

INVESTIGATIONS	
178	OPENED
113	CLOSED
238	PENDING

Enforcement Aging—Completed Intake and Investigations

This section breaks down the total number of closed investigations by cycle time. The timeline begins from the date the complaint was received to the date the investigation was closed. Each number is representative of a case that was closed in that time frame. Additionally, this section includes cycle times related to major milestones in the intake and investigation processes.

ENFORCEMENT AGING—COMPLETED INTAKE AND INVESTIGATIONS	
46	UP TO 90 DAYS
6	91 TO 180 DAYS
11	181 DAYS TO 1 YEAR
17	1 TO 2 YEARS
15	2 TO 3 YEARS
18	OVER 3 YEARS
4	AVERAGE NUMBER OF DAYS FROM RECEIPT OF COMPLAINT TO ASSIGNMENT OF INVESTIGATOR (START OF INVESTIGATION)
489	AVERAGE NUMBER OF DAYS FOR ALL INVESTIGATION OUTCOMES (FROM START OF INVESTIGATION TO REFERRAL FOR PROSECUTION OR CASE CLOSURE WITHOUT REFERRAL FOR PROSECUTION)
471	AVERAGE NUMBER OF DAYS FROM RECEIPT OF COMPLAINT TO REFERRAL FOR PROSECUTION OR CASE CLOSURE WITHOUT REFERRAL FOR PROSECUTION

Citations and Fines

Total number of citations issued with and without an administrative fine and the total number of citations withdrawn, dismissed, or reduced. Additionally, this section includes a cycle time that demonstrates the average number of days from when the complaint was received to when the citation was issued.

CITATIONS AND FINES	
0	ISSUED WITHOUT A FINE
3	ISSUED WITH A FINE
1	WITHDRAWN/DISMISSED/REDUCED
399	AVERAGE NUMBER OF DAYS TO ISSUE A CITATION AND FINE (FROM COMPLAINT RECEIPT/INSPECTION CONDUCTED TO CITATION ISSUED)

Total Amount of Fines

Total amount of fines assessed, withdrawn, dismissed, reduced, and collected.

TOTAL AMOUNT OF FINES	
\$3,750.00	ASSESSED
\$250.00	WITHDRAWN/DISMISSED/REDUCED
\$13,050.00	COLLECTED

Criminal/Civil Actions

Total number of referrals for criminal or civil action and criminal and civil actions filed. These are referrals to or filings by a district attorney or city attorney for criminal or civil action. These may include misdemeanor citations. A referral may be made both to the district attorney and the Office of the Attorney General, in which case it will be reflected in both categories.

CRIMINAL/CIVIL ACTIONS	
1	REFERRALS FOR CRIMINAL/CIVIL ACTION
1	CRIMINAL ACTIONS FILED
0	CIVIL ACTIONS FILED

Office of the Attorney General/Disciplinary Actions

Total number of attorney general cases that were opened and initiated, closed, and pending at the end of the fiscal year. Complaints and investigations in which the evidence

and facts have substantiated a violation of the law are referred to the attorney general for disciplinary action. Outcomes of disciplinary action may affect the status of a professional's license.

OFFICE OF THE ATTORNEY GENERAL/DISCIPLINARY ACTIONS

11	CASES OPENED/INITIATED
3	CASES CLOSED
21	CASES PENDING

Formal Actions Filed/Withdrawn/Dismissed

Total number of statement of issues and accusations filed; restraining/restriction/suspension orders granted; statement of issues and accusations withdrawn and dismissed; and average number of days from closure of an investigation to imposing formal discipline.

FORMAL ACTIONS FILED/WITHDRAWN/DISMISSED

0	STATEMENT OF ISSUES FILED

Enforcement Aging—Completed Attorney General Cases

This section breaks down the total number of attorney general cases closed by cycle time. The timeline begins from the date the complaint was received to the date the order became effective. Each number is representative of a case that was closed in that time frame.

Additionally, this section includes an overall cycle time demonstrating the average number of days it takes to impose formal discipline.

ENFORCEMENT AGING—COMPLETED ATTORNEY GENERAL CASES	
0	UP TO 1 YEAR
1	1 TO 2 YEARS
0	2 TO 3 YEARS
2	OVER 3 YEARS
1,219	AVERAGE NUMBER OF DAYS TO IMPOSE DISCIPLINE

Probation

Total number of probation terms completed and probations pending at the end of the fiscal year. Probation is an action taken in administrative discipline during which a licensee is monitored and must adhere to certain terms and conditions.

PROBATION	
5	PROBATIONS COMPLETED
19	PROBATIONERS PENDING (CLOSE OF FISCAL YEAR)

Subsequent Discipline

Total number of subsequent disciplines ordered. Subsequent discipline occurs when a licensee is on probation and violates the law.

SUBSEQUENT DISCIPLINE	
0	PROBATIONS REVOKED
0	PROBATIONER'S LICENSE SURRENDERED
0	ADDITIONAL PROBATION ONLY
0	SUSPENSION ONLY ADDED
0	OTHER CONDITIONS ADDED ONLY
0	OTHER PROBATION OUTCOME

Petition for Modification or Termination of Probation

Total number of petitions for modification or termination of probation granted and denied. This refers to the outcome of petitions filed by licensees to modify terms and conditions of probation or to terminate probation only.

PETITION FOR MODIFICATION OR TERMINATION OF PROBATION	
0	GRANTED
0	DENIED

Petition for Reinstatement of Revoked License/Registration/Certification

Total number of petitions for reinstatement of revoked licenses, registrations, or certificates granted and denied. This refers to the outcome of petitions by licensees requesting reinstatement of a revoked or surrendered license.

PETITION FOR REINSTATEMENT OF REVOKED LICENSE/REGISTRATION/CERTIFICATION	
0	GRANTED
0	DENIED

Cost Recovery

Total dollar amount of administrative costs ordered and collected by boards and bureaus. The amount ordered is to be paid by a licensee in a disciplinary decision for reimbursement of the board's or bureau's investigation and/or legal costs.

COST RECOVERY	
\$47,500.00	ORDERED
\$53,896.00	COLLECTED

Restitution to Consumers/Refunds/Savings

Total of court-ordered restitution to consumers as a result of mediation efforts. In some instances, services were performed without charge to the consumer, a consumer's bill was reduced, or a product was returned or exchanged.

RESTITUTION TO CONSUMERS/REFUNDS/SAVINGS	
\$22,949,539.00	RESTITUTION ORDERED
\$44,734,367.00	AMOUNT REFUNDED
\$1,220,150.00	REWORK AT NO CHARGE
N/A	ADJUSTMENTS/RETURNS/EXCHANGES

Sunset Review:

Last review: 2019 | Next review: 2024

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code sections 5096–5096.22, qualified out-of-state certified public accountants (CPAs) may participate in the Board’s mobility program and practice public accountancy in California without providing notice or paying a fee. All CPAs practicing in California under the mobility program are subject to the disciplinary authority of the Board and, if applicable, must self-report certain disqualifying events and cease practicing in the state until authorized by the Board.

ACCOMPLISHMENTS

Strategic Plan

In 2021, the Board began work on the development of its 2022–2024 Strategic Plan. At its November 2021 and January 2022 Board meetings, with the assistance of DCA’s SOLID Training and Planning Solutions, the Board conducted strategic planning workshops. At these workshops, the Board identified and discussed objectives and updated goals. The Board also updated its values to include diversity, equity, and inclusion, as the Board supports and encourages a variety of perspectives, backgrounds, and experience that benefit its operation. The updates were approved at the March 2022 Board meeting and the *2022–2024 Strategic Plan* is available on the Board’s website.

Technological Advancements

The Board made significant progress on its Business Modernization Project to increase automation and create a more efficient initial licensing and license renewal process and improved business processes for all stakeholders. The Board reached two milestones in this project, launching an online license renewal system—CBA Connect—and a new online complaint submission system.

CBA Connect allows licensees to complete the entire renewal process online, create an account, make renewal payments, submit documentation, and track the status of their application. The new complaint system assists the Enforcement Division with the Board’s highest priority—consumer protection—and allows users to include supporting documentation and receive an electronic copy of their complaint submission. The complaint system accepts complaints against licensees and unlicensed individuals practicing public accountancy.

Updates to Enforcement

The Enforcement Program continued improvements in case management and closed 3,126 investigations, which is approximately a 15% increase in the number of cases closed compared to the prior fiscal year. Staff closed nearly 80% of the investigations within six months and 98% within one year. The number of complaints received (4,414) in fiscal year 2021–22 increased 62% compared to the prior fiscal year (2,729).

Updates to Licensing

The Board maintained a 30-day or less processing time frame for all examination and licensing applications.

New Taskforce Established

Board President Michael M. Savoy, CPA, established the Consideration of the CPA Experience Requirements Taskforce (CERT) to study California’s two experience tracks for CPA licensure. The Board tasked CERT with studying and advising on whether the attest experience requirement for CPA licensure is necessary and sufficient to support the Board’s consumer protection mandate. CERT met for the first time in March 2022 and will continue its deliberations into fiscal year 2022–23.

Communications and Outreach

The Board launched the “Accounting for California Podcast,” which spotlights issues important to consumers and the accounting profession in the state. Each episode features a guest speaking in depth about a particular

topic, including the Board’s licensing or renewal processes and new legislation or regulations affecting consumers or licensees in the accounting industry.

The Board hosted its inaugural virtual outreach event, “The Pathway to Your CPA,” in October 2021, which was open statewide to all prospective CPAs and students, with approximately 350 attendees.

NEW LEGISLATION

There was no enacted legislation solely related to the Board.

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Technological Advancements

Since the launch of its online licensing platform, AcuConnect, in September 2020, the Acupuncture Board, in collaboration with DCA, has continued to develop and add new features to it. In spring 2022, the Board began development of its continuing education (CE) module that will allow CE providers to apply for and renew their provider status online, as well as submit and pay for CE course applications. In fiscal year 2021–22, the AcuConnect system was used by 70% of licensees for renewal and the system processed over \$3 million of transactions that were previously done manually.

Updates to Regulations

The Office of Administrative Law approved the Board’s implementation regulations package based on Assembly Bill 2138 (Chiu, Chapter 995, Statutes of 2018), which requires boards to amend their existing regulations governing substantially related crimes or acts as well as rehabilitation criteria. The regulation package went into effect September 2, 2021.

The Office of Administrative Law approved the Board’s section 100 changes without a regulatory effect package to repeal the free and sponsored health care event, based on Assembly Bill 512 (Rendon, Chapter 111, Statutes of 2013). This package went into effect August 6, 2021.

The Office of Administrative Law approved the Board’s section 100 changes without regulatory effect package for omnibus clean-up language. This package went into effect April 22, 2022. This package cleaned up regulatory language and forms for consistency.

Board Leadership

At its June 2021 meeting, the Board elected John Harabedian as Board president and Ruben Osorio as Board vice president.

NEW LEGISLATION

There was no enacted legislation solely related to the Board.

LICENSE REQUIREMENTS*

SUMMARY OF LICENSING ACTIVITY

INITIAL LICENSES/REGISTRATIONS/CERTIFICATE/PERMITS			
TYPE	APPLICATIONS RECEIVED	ISSUED	RENEWED
ACUPUNCTURIST LICENSE	311	311	5,684
WALL LICENSE	2,448	2,448	128*
TOTAL	2,759	2,759	5,812

* The place of practice Wall License (WL), with a two-year renewal period, was a new requirement implemented January 1, 2021. The reason for the number of WL renewals is due to prorating the initial licensing period to allow the renewal cycle to be set to the licensee’s birthday month. The prorated initial license may be issued for 13-24 months depending on when the initial licensing was completed. This initial licensing period of under 2 years resulted in 128 WL renewals in fiscal year 2021-22.

Sunset Review:

The Arbitration Certification Program is not subject to sunset review because it is not a board or bureau.

PROGRAM HIGHLIGHTS

RECIPROCITY

The Arbitration Certification Program (ACP) does not have reciprocity.

ACCOMPLISHMENTS

Communications and Outreach

ACP has an educational video available on its website that provides helpful information to consumers on what to expect when participating in the arbitration process and ACP’s authority. In addition, ACP continued its public outreach by distributing two trifold brochures to vehicle owners. These brochures help guide consumers through the state-certified Lemon Law arbitration process. In 2021, ACP reached 1,785 consumers with these publications.

ACP staff held site visits, via teleconference, with all 20 state-certified manufacturers and each of the three arbitration programs to conduct its mandated site inspections. These inspections consist of a comprehensive review of operations to ensure they remain in compliance with California statutes and regulations. These visits provided ACP with opportunities to review records and operations, including the records of individual disputes, interviews of program staff and discussion of violations, and current trends and issues.

ACP also reengineered its Consumer Satisfaction Survey to better gauge satisfaction with automotive manufacturers, arbitration programs, and consumers’ vehicles. The survey, mandated by the Legislature, was revamped to evaluate and compile better response statistics from consumers by streamlining it into one post-decision survey.

Strategic Plan

As part of the 2018–2022 Strategic Plan, ACP began working with the DCA Organizational Improvement Office to map and improve internal processes. Once completed, ACP will look at alternative systems to streamline operations, track compliance, and facilitate timely and complete reporting of activities and outcomes.

Consumer Protection

In calendar year 2021, ACP monitored the return of over \$20.4 million to consumers in the form of refunds, replacement vehicles, extended service contracts, and repairs awarded by state-certified arbitration programs.

NEW LEGISLATION

There was no enacted legislation solely related to ACP.

Sunset Review:

Last review: 2019 | Next review: 2024

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to title 16, California Code of Regulations, Division 2, section 121, reciprocity applicants must hold a current and valid license in a qualifying jurisdiction, provide verification of eight years of combined education and work experience, meet the licensing requirements equivalent to those in California, and successfully complete the California Supplemental Examination.

ACCOMPLISHMENTS

Strategic Plan

The Board adopted a new Strategic Plan for 2022–2024 in December 2021. Highlights include removing barriers to licensure by amending existing regulations to revise and expand the types of degrees accepted for licensure, implementing a national trendsetting zero net carbon design requirement for licensees, and promoting the profession by spotlighting diversity in communications and social media.

A revised Committee Policy was adopted by the Board that revises committee membership to five members for the duration of the Strategic Plan to ensure objectives are met.

Consumer Protection

The Board established a regulations coordinator/manager position to facilitate the regulatory process and ensure regulations are adopted timely as required by legislation to protect consumers and enforce the Architects Practice Act.

Communications and Outreach

The Board produced “10 Tips for Hiring an Architect” videos in English and Spanish for consumers, and developed the first in a series of licensing videos for candidates, also in English and Spanish. Staff attended National Council of Architectural Registration Boards virtual outreach events with California universities to provide students with information on specific requirements for licensure. Licensing staff attended and presented at American Institute of Architects virtual events.

Technological Advancements

Collaboration continues with DCA to create a new information technology platform to provide more efficient services to licensees and the public. The new platform should be operational in January 2024. A new phone system was installed to better serve the public and Board staff, as well as provide cost savings.

NEW LEGISLATION

There was no enacted legislation solely related to the Board.

Laws and Regulations:

Business and Professions Code §§ 5615–5683

California Code of Regulations, Division 26, title 16,
§§ 2602–2680

Sunset Review:

Last review: 2019 | Next review: 2024

COMMITTEE HIGHLIGHTS

RECIPROCITY

Pursuant to California Code of Regulations (CCR), Division 26, title 16, section 2615, in order to be eligible for reciprocal licensure in California, a candidate must be licensed as a landscape architect in a U.S. jurisdiction, Canadian province, or Puerto Rico, by having passed a written examination substantially equivalent in scope and subject matter to the Landscape Architect Registration Examination, meet the education and training requirements for first-time examination candidates, and successfully complete the California Supplemental Examination. For purposes of reciprocity, the Committee recognizes two national examinations, which are the Landscape Architect Registration Examination and Uniform National Examination for Landscape Architects.

ACCOMPLISHMENTS

Technological Advancements

The Committee partnered with DCA's OIS to successfully complete all four stages of the California Department of Technology's Project Approval Lifecycle. In addition, the Committee began transitioning to a new licensing and enforcement technology platform in May 2022, which will be fully implemented in November 2023.

The Committee expanded its social media presence to include LinkedIn and Instagram.

Strategic Plan

The Committee developed a new strategic plan for 2022–2024, which includes objectives to enhance enforcement processes, conduct a review of the Landscape Architect Registration Examination and linkage study to ensure the California Supplemental Examination reflects content that is unique to California, and sunset review.

Updates to Regulations

A regulatory package was approved by the Office of Administrative Law (OAL) amending CCR sections 2615 and 2620, effective June 8, 2022. These changes prescribe allowable credit for acceptance of nonrelated degrees and provide an experience-only pathway to licensure.

A regulatory package was submitted to OAL to amend CCR section 2620.5. These changes establish criteria for the following: (1) program approval including expiration, renewal, and extensions of approval, (2) program denial and appeal of Board denial, (3) the process to conduct site inspections, and (4) the information that shall be provided by the extension certificate program to evaluate the program’s compliance with this regulation.

A regulatory package was approved by OAL amending CCR section 2671 to require licensed landscape architects to include their license number in advertisements and legal documents.

NEW LEGISLATION

There was no enacted legislation solely related to the Committee.

COMMISSION HIGHLIGHTS

RECIPROCITY

Applicants licensed in another state must meet or exceed the California State Athletic Commission's (Commission) licensing requirements because no national governing body exists. However, medical examinations from other states by a licensed physician may be accepted if they are completed to the Commission's standards and requirements.

ACCOMPLISHMENTS

During the COVID-19 pandemic and under the Commission's Emergency COVID-19 Resiliency Procedures, the Commission oversaw 35 events from July 2020, to June 2021. With the state lifting its COVID-19 measures and reopening, the Commission is slowly getting back to normal, overseeing 134 events from July 2021 to September 2022. This is fewer events than what the Commission usually oversees per year. In 2019, the Commission regulated 143 events.

Consumer Protection

The Commission is the only commission in the country that has a Boxer Pension Plan available to boxers who compete in California. This year, the Commission paid \$371,283 in lump sum payments to 11 retired boxers.

In addition, at the June 2022 Commission meeting, the Commission created a Mixed Martial Arts (MMA) Pension Plan Subcommittee tasked with exploring the creation of an MMA pension plan for MMA athletes.

Updates to Regulations

The Commission promulgated regulations that went into effect July 1, 2022, that identify medical examinations required as a condition of initial licensure and license renewal. The medical examinations detect physical conditions that could place an athlete at risk for serious injury or permanent or temporary impairment of any bodily function.

The regulations also set a neurological assessment required to be paid by promoters who host events in California. The assessment will be deposited in the State Athletic Commission Neurological Examination Account. These funds will allow the Commission to cover the costs of neurological examinations required by Business and Professions Code section 18711 or for any other purpose related to the neurological health of combat sports athletes.

NEW LEGISLATION

AB 1813 (Medina, Chapter 177, Statutes of 2022) clarifies that the executive officer of the Commission is not liable for discretionary acts taken while performing duties pursuant to their work for the Commission, including the approval of contests and the assignment of officials for contests.

BUREAU HIGHLIGHTS

RECIPROCITY

The Bureau does not have reciprocity.

ACCOMPLISHMENTS

Communications and Outreach

In celebration of its 50th anniversary, the Bureau launched an outreach campaign aimed at educating consumers and increasing awareness of the Bureau's consumer-protection programs and services. As part of this outreach, the Bureau created a new sign to inform consumers about the Bureau's assistance programs. Posted at all licensed Smog Check stations, the sign provides consumers helpful information on available resources and ways to help prevent catalytic converter theft.

Consumer Protection

The Bureau introduced several key initiatives to enhance consumer protection pursuant to Assembly Bill 471 (Low, Chapter 372, Statutes of 2021). As part of this effort, BAR conducted a public workshop and stakeholder survey to establish a new vehicle inspection and certification program for salvage-titled vehicles. The new program will help inform consumers buying these vehicles of any potential issues with the safety systems and components due to a prior collision. The Bureau also initiated development of a new online process for sharing licensee certification information with consumers through its Auto Shop Locator.

The Bureau also adopted regulations to increase financial assistance for consumers whose vehicles require emissions repairs. The updated regulations reduce pre-repair diagnostic fees for income-eligible vehicle owners and eliminate unnecessary eligibility restrictions pertaining to vehicle registration. In addition, the Bureau retired 25,540 vehicles and provided financial assistance to consumers to repair the emissions systems of 3,679 vehicles.

Updates to Enforcement

The Bureau updated its disciplinary guidelines to establish a rehabilitative option to ensure licensees subject to a disciplinary order receive appropriate training on Bureau laws and regulations. This new feature will require all disciplined shops to complete training on compliance issues to protect consumers in future automotive repair transactions.

Smog Check Program

The Bureau adopted regulations to improve the STAR Program, which certifies Smog Check stations that meet certain performance standards. The new regulations close administrative loopholes and ensure better compliance with Smog Check Program goals.

The Bureau also implemented software updates to the Vehicle Information Database to detect and fail vehicles with illegally modified software. Real-time analysis of Smog Check data enabled the Bureau to block registration certificates from being issued to 1,414 vehicles that had a fraudulent inspection performed. The Bureau also conducted 2,309 station inspections, 181 of which were referred to its Field Operations and Enforcement Division for further investigation.

Technological Advancements

Digitization of records and enhancements to licensing operations contributed to a 5% reduction in Bureau application processing times. The Bureau also continued to advance its multi-year Enforcement and Licensing Modernization (ELM) project, which will transition outdated information technology systems to a modern platform. Modernizing existing paper processes will improve the availability of online services to licensees and the overall efficiency of Bureau licensing and enforcement operations.

NEW LEGISLATION

AB 1740 (Muratsuchi, Chapter 513, Statutes of 2022) requires a core recycler who purchases or receives a catalytic converter to maintain a written record of the year, make, model, vehicle identification number, and copy of the title of the vehicle from which the catalytic converter was removed. It prohibits a core recycler from purchasing or receiving a catalytic converter from any person who is not a commercial enterprise, as defined, including an automotive repair dealer, or the verified owner of the vehicle that the catalytic converter was removed from. Core recyclers will be exempt from some requirements if they have a written agreement with the seller or commercial enterprise.

AB 2496 (Petrie-Norris, Chapter 595, Statutes of 2022) requires the Smog Check Referee, a program administered by the Bureau, beginning January 1, 2027, to test the exhaust systems of vehicles, including motorcycles, cited for violation of California Vehicle Code sections 27150, 27150.3, or 27151, and to issue certificates of compliance for those vehicles. This bill requires a court, beginning January 1, 2027, to require a certificate of compliance for a vehicle, including a motorcycle, cited for violation of Vehicle Code sections pertaining to excess noise. Additionally, this bill specifies that the court will be required to notify the Department of Motor Vehicles, and place a registration hold on the vehicle, if the certificate of compliance is not issued within three months of the violation.

SB 1087 (Gonzalez Chapter 514, Statutes of 2022) prohibits a core recycler, or any person, from purchasing a catalytic converter from anyone except: 1) a licensed automobile dismantler, 2) a core recycler, 3) a motor vehicle manufacturer, dealer, or lessor-retailer, 4) a licensed automotive repair dealer, 5) any other licensed business that may reasonably generate, possess, or sell used catalytic converters, or 6) an individual possessing documentation that they are the lawful owner of the used catalytic converter. This bill provides for fines as the penalty for violating these restrictions.

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code section 7331, the Board grants a license to practice to an applicant if the applicant submits all of the following to the Board:

- A completed application form and all fees required by the Board.
- Proof of a current license issued by another state to practice that meets all of the following requirements:
 - It is not revoked, suspended, or otherwise restricted.
 - It is in good standing.

ACCOMPLISHMENTS

Updates to Licensing

Effective January 1, 2022, individuals licensed in other states are eligible to obtain a California license. Prior to this date, these individuals were required to be licensed for three of the last five years in order to receive a license in California. This new law is a significant benefit to licensed individuals who are moving into California, including military personnel and military families from other states who are stationed in California.

Recent legislation also made significant changes to Board statutes that address barriers to entry, increased consumer protection, and streamlined licensing processes for applicants. The Board has implemented most of the changes, including:

- Elimination of the practical examination.
- Reducing the educational requirement for cosmetology students from 1,600 hours to 1,000 hours.

- Reducing the educational requirements for barbering students from 1,500 hours to 1,000 hours.
- Streamlining the licensing requirements for mobile units.
- Updating the scope of practice for the esthetician license type.

Communications and Outreach

In 2022, the Board participated in several conferences, expositions, and trade shows. Board staff held question-and-answer sessions with barbering and cosmetology students, licensees, and school owners, and were also available to answer individual questions. In addition, the Board participated in online events to provide information to licensees on statutory changes that became effective January 1, 2022, as well as the Board’s role in consumer protection in the barbering and cosmetology industry.

In April 2022, the Board launched its ninth annual “Safe Sandal Season” campaign to educate consumers and licensees on safe nail salon practices. The Board partnered with the DCA’s OPA to create social media posts that were promoted during the summer months when consumers are most likely to receive a pedicure. The Board also worked with OPA to develop two informational videos regarding the Board’s personal service permit (PSP) for consumers and licensees. A PSP allows licensees to provide limited services outside of licensed establishments if they meet certain requirements.

NEW LEGISLATION

AB 2196 (Maienschein, Chapter 527, Statutes of 2022) clarifies the scope of a hairstylist license, establishes minimum requirements for electrolysis courses, and updates the barbering extern program.

BOARD HIGHLIGHTS

RECIPROCITY

While the Board does not have true reciprocity, the Board does allow for license portability through a new licensure-by-credential pathway established by SB 679 (Bates, Chapter 380, Statutes of 2019). This innovative approach provides a streamlined application process for out-of-state licensed marriage and family therapists, licensed clinical social workers, and licensed professional clinical counselors to become licensed in California. To apply for a license under this pathway the following requirements must be met:

- The applicant must hold a license in another U.S. jurisdiction for at least two years.
- The license must be current, as well as active and unrestricted for at least two years immediately before the date an application is submitted to the Board.
- The license must be the highest level for independent clinical practice in that jurisdiction.
- The degree that qualified the applicant for the license is a master’s or doctoral degree obtained from a school holding a regional or national institutional accreditation recognized by the U.S. Department of Education, or a school approved by the California Bureau for Private Postsecondary Education.

Additionally, the applicant must take and pass the California Board of Behavioral Sciences’ Law and Ethics Examination and complete additional continuing education in specific coursework.

ACCOMPLISHMENTS

Strategic Plan

In November 2021, the Board adopted its 2022–2026 Strategic Plan. It emphasizes reducing unnecessary barriers to licensure, supporting a culturally responsive workforce, increasing access through technology, and Board accountability. It also supports the ongoing efforts of the Board to create a licensing process that is efficient, streamlined, and technologically friendly.

Communications and Outreach

The Board’s social media presence continues to expand. The Board continued to conduct Facebook Fridays where each week, staff conduct live events to discuss important topics concerning the licensure process, and answer questions from the audience. This effort has doubled the Board’s Facebook followers and increased the Board’s reach when disseminating important information and alerts.

Sunset Review

The Board’s sunset review had to be delayed due to the COVID-19 state of emergency. Therefore, during the 2021 legislative session, the Board’s sunset date was extended by one year—from January 1, 2021, until January 1, 2022—to allow extra time for the sunset review to occur. Senate Bill 801 (Archuleta, Chapter 647, Statutes of 2021) was signed by the governor on October 7, 2021, extending the Board’s sunset date until January 1, 2026.

Board Leadership

Steve Sodergren was chosen as the executive officer effective March 3, 2021. Sodergren had served as the interim executive officer since December 2020, and was previously the assistant executive officer for the Board. Additionally, Marlon McManus was chosen to fill the role of assistant executive officer for the Board effective November 2, 2021. McManus previously served as Staff Services Manager I over the Board’s Consumer Complaint and Investigations Unit for six years.

Updates to Regulations

The Legislature approved changes to the Board’s supervision-related regulations in 2021. The regulations were changed based on recommendations made by the Board’s Supervision Committee, which began working on them in 2014. The changes are designed to strengthen supervised experience requirements in ways that benefit and provide clarity to supervisors, agencies, and supervisees; to address issues that may arise during supervised experience; and to reduce the problems

sometimes encountered by supervisees in the process of applying for licensure.

NEW LEGISLATION

AB 1758 (Aguiar-Curry, Chapter 204, Statutes of 2022) allows required weekly supervision of prelicensed supervisees to be conducted via two-way, real-time videoconferencing in all settings, if the supervisor makes an assessment that this is appropriate. This bill will also require the sunset of these provisions in 2026. This bill was an urgency measure and took effect immediately upon signing.

AB 1759 (Aguiar-Curry, Chapter 520, Statutes of 2022) requires Board applicants for licensure and current licensees to complete three hours of training or coursework related to providing mental health services via telehealth. This bill also requires Board registrants to complete a three-hour continuing education course each renewal cycle in California law and ethics.

BUREAU HIGHLIGHTS

RECIPROCITY

The Bureau does not have reciprocity.

ACCOMPLISHMENTS

Consumer Protection

The Bureau referred 13 cases for prosecution by the Attorney General’s Office in response to licensee violations of the Cemetery and Funeral Act. The Bureau also investigated over 1,000 complaints, resulting in approximately \$57,000 in restitution to consumers.

Bureau audit staff performed compliance checks and identified mismanagement or misappropriation of consumer funds. In fiscal year 2021–22, the Bureau remediated over \$2.7 million in mismanaged or untrusted funds.

Communications and Outreach

The Bureau chief participated in multiple outreach events this year both in person and virtually, connecting with a wide range of stakeholders. This included presenting to consumers and educators at the annual conference of the Funeral Consumers Alliance of California, providing a Bureau update to mortuary science students at Cypress College, and meeting with students from Sequoia High School in Pasadena who chose sustainable death care as the topic for their senior project.

Additionally, the Bureau Advisory Committee meetings were held virtually, and one included an in-person option at Cypress College as an alternate location to Sacramento.

The Bureau provided updates to the Cemetery and Mortuary Association of California and the California Funeral Directors Association.

The Bureau chief virtually presented to consumer and licensee groups to provide information related to the death-care industry. Additionally, the Bureau included a virtual option for both Advisory Committee meetings, allowing for broader public access and participation.

Technological Advancements

In collaboration with DCA, the Bureau has begun developing its new information technology platform, CFB Connect, to improve access and processing of applications, renewals, and mandated licensee reports. This modernization effort will allow staff to easily access statistical data and increase accessibility, accuracy, and productivity.

LEGISLATION

AB 351 (Garcia, Chapter 399, Statutes of 2022) requires the Bureau, beginning January 1, 2027, to license and regulate reduction facilities, which the bill defines as a location where natural, organic reduction of a human body occurs, and reduction facility managers, and will enact requirements applicable to reduction facilities, which are substantially similar to those for crematories and hydrolysis facilities. Additionally, this bill will require a local registrar of births or deaths to issue permits for the disposition of reduced human remains.

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Sunset Review

The Board submitted its *2021 Sunset Review Report* to the Assembly Committee on Business and Professions and the Senate Committee on Business, Professions, and Economic Development in January 2022. Board Chair David Paris, D.C., and acting Executive Officer Kristin Walker represented the Board at the oversight hearing that was held in March 2022.

In addition to addressing the issues raised by the committees, the Board presented a proposal to restore long-term stability for the Board’s fund while reducing the initial cost of licensure by realigning its fees with the costs of providing services. The Board also presented a proposal to significantly strengthen consumer protection by ensuring patients are properly notified of a licensee’s probationary status and disciplinary history prior to receiving chiropractic care.

Board Leadership

The Board appointed Kristin Walker as the new executive officer effective May 23, 2022. She had served as the Board’s acting executive officer following the retirement of the former executive officer, Robert Puleo, in December 2021, and previously held the roles of assistant executive officer and enforcement manager.

Technological Advancements

The Board continued to collaborate with DCA’s Office of Information Services and the Acupuncture Board; the Board for Professional Engineers, Land Surveyors, and Geologists; and the Bureau for Private Postsecondary Education on the development and implementation of a modern application, licensing, and enforcement system known as Connect.

In July 2021, the Board launched a new online complaint form for the public to file complaints directly with the Board and receive instant confirmation of receipt. The Board also transitioned all new complaints and investigations to the Connect system to streamline the intake and investigation process. Through an additional software release in November 2021, the Board added its remaining enforcement processes—cite and fine, formal discipline, and probation monitoring—to the system. Future phases in 2022–23 will implement additional functionality for the Board, consumers, applicants, and licensees.

Strategic Plan

The Board worked with DCA SOLID Training and Planning Solutions on preliminary activities for the development of the Board’s 2022–2026 Strategic Plan. In March 2022, the Board distributed a survey to its external stakeholders to gather important input and perspectives about the Board’s performance and environment. In addition, SOLID conducted staff focus groups and interviewed Board members and leadership to help shape the framework and agenda for the Board’s strategic planning session. SOLID compiled and analyzed the results of the survey, focus groups, and interviews and prepared an environmental scan document to assist the Board in identifying and developing objectives for its next strategic plan, which is scheduled for adoption in fall 2022.

Updates to Enforcement

The Board’s Enforcement Unit began a project with DCA’s Organizational Improvement Office to evaluate the Board’s complaint intake, desk investigation, and field investigation processes and to identify strategies that will improve productivity, reduce investigation time frames, and provide excellent customer service to those involved in the consumer complaint process. The Board expects to fully implement the recommendations throughout fiscal year 2022–23.

NEW LEGISLATION

SB 1434 (Roth, Chapter 623, Statutes of 2022) is the sunset bill for the Board. This bill extends the Sunset date for the Board until January 1, 2027. This bill also, among other things, makes significant changes to the Board’s fee schedule and requires the Board to submit a fee structure report to the Legislature as a part of its next sunset review, and removes specified exemptions from the requirement for licensees to disclose their probationary status to patients.

California Code of Regulations, Division 8, title 16, §§ 810–890

Sunset Review:

Last review: 2019 | Next review: 2024

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Profession Code section 7065.4, the Board has reciprocity agreements in place with Arizona, Louisiana, and Nevada. The following reciprocity requirements are the same for these states:

- The contractor must be applying for a license in a classification that appears on that state’s Reciprocal Classifications List.
- The contractor must have held an active license in good standing in one of the reciprocal states for the previous five years.
- The contractor must submit to the Board the Request for Verification of License form that is completed by the licensing entity under which he or she is already licensed.
- The contractor must complete the Application for Original Contractor’s License.
- The Certification of Work Experience form 13A-11 must be used to report and confirm the journey-level work experience for the previous five years.

If the Board grants reciprocity to a contractor, it can waive the trade portion of the examination (the contractor still must take the business law examination section); however, the Board retains the right to require the examination.

ACCOMPLISHMENTS

Consumer Protection

The Board administered the \$5 million Solar Energy System Restitution Program established by Assembly Bill 137 (Committee on Budget, Chapter 77, Statutes of 2021). The program provides funding for consumers financially harmed by a solar contractor. Staff extensively publicized the fund and partnered with the Dolores Huerta Foundation to host a bilingual webinar to inform and assist qualifying consumers about how to file a claim. In fiscal year 2021–22, 266 claims were received and over \$1.2 million in restitution was approved for payment to claimants under the program.

The Board joined other state and local agencies at nine local assistance centers throughout California to offer recovery assistance and information to property owners affected by wildfires. The Board also addressed unlicensed activity in wildfire zones by conducting sweeps and undercover sting operations to enforce license requirements and discourage unlicensed activity.

Communications and Outreach

The Board's Public Affairs Office produced or coproduced 31 livestreams and 14 consumer and licensee educational videos, which collectively received 78,300 views on YouTube. The Board received nearly 295,000 views of posts on Facebook, Twitter, Instagram, YouTube, LinkedIn, and Flickr. Staff also conducted 27 virtual consumer protection events and Senior Scam Stopper presentations for over 1,000 people in legislative districts throughout California. These seminars were conducted with other state agencies, local law enforcement, and community-based organizations.

Updates to Licensing

The Board transferred the full administration of its license examinations to PSI Exams. This transfer benefits examinees by expanding the number of examination locations throughout California, increasing testing and customer service hours, and providing Saturday and evening availability.

The Board assisted military veterans seeking licensure by referring such individuals to specially trained staff to review transferable military training and experience and expedited processing for 915 applications meeting these criteria.

The Board also enhanced the Online Renewal Program to include all single qualifier licensees. The feature allows 95% of all licensed contractors to process their renewals in real time.

In 2021–22, the Board distributed nearly \$175,000.00 in construction management education grants to construction management programs at four California universities.

Updates to Enforcement

The Board helped consumers recover over \$50 million in ordered restitution through its enforcement actions in 2021–22. Staff initiated 18,798 investigations, settled 2,658 cases, issued 463 letters of admonishment, and took 2,850 legal actions. The Statewide Investigative Fraud Team (SWIFT) responded to 996 leads. SWIFT conducted 17 sting operations and 337 sweep days, which led to the issuance of 137 notices to appear in criminal court. SWIFT also issued 319 stop orders to uninsured employers. In total, 729 cases resulted in administrative action, 390 were referred to district attorney offices for criminal prosecution, and 1,386 advisory notices were issued for illegal advertising and technical violations. The Board conducted 360 informal citation conferences to reach mutual agreements between respondents while avoiding the time, inconvenience, and expense of a formal administrative hearing.

Strategic Plan

In June 2022, the Board approved its 2022–24 Strategic Plan. Board members and staff are working toward the following goals:

Ensure all applicants and licensees meet minimum qualifications to provide construction services; reduce, eliminate, or prevent unlicensed activity and unprofessional conduct that pose a threat to public health, safety, and welfare; pursue statutes, regulations, policies, and procedures to strengthen and support Board operations; educate consumers about making informed choices related to construction services, and provide information to licensed contractors so they can improve their awareness of contracting laws and technical, management, and service skills; and enhance organizational effectiveness and improve the quality of service in all programs.

NEW LEGISLATION

SB 216 (Dodd, Chapter 978, Statutes of 2022) will require contractors who possess a C-8, C-20, C-22, or D-49 license to hold valid workers' compensation insurance from July 1, 2023, until January 1, 2026. Additionally, this bill will require that by January 1, 2026, all contractors, except for joint ventures without employees, hold valid workers' compensation insurance, whether or not they have employees.

AB 1747 (Quirk, Chapter 757, Statutes of 2022) will raise the civil penalty for a licensee of the Board, from \$5,000.00 per violation to no more than \$30,000.00 per violation, for willful or deliberate disregard of any state or local building laws related to the issuance of building permits and a number of other health and safety violations.

AB 2105 (Smith, Chapter 156, Statutes of 2022) will require the Board to grant a 50% fee reduction of an initial license fee or registration fee for an applicant who has provided specified documentation to the Board that they served as an active-duty member of the U.S. armed forces, including the National Guard or Reserve components, and they were not dishonorably discharged.

AB 2374 (Bauer-Kahan, Chapter 784, Statutes of 2022) will increase the maximum fines for illegal dumping by persons employing more than 10 full-time employees and require that person to pay for the cost of removing the waste if they are convicted. This bill will also require the courts to notify the licensing or permitting entity under the jurisdiction of DCA when a licensee was convicted of illegal dumping, and the entity must post the conviction on the public profile for that licensee on their website.

AB 2916 (McCarty, Chapter 293, Statutes of 2022) will allow the Board to disclose a letter of admonishment issued to a licensee for a period of either one or two years, instead of only one, as specified.

SB 1076 (Archuleta, Chapter 507, Statutes of 2022) will require the Department of Public Health to review and revise regulations governing lead-related construction work, including training and certification for workers and accreditation for trainers in lead-safe work practices, to comply with existing state regulations and the U.S. Environmental Protection Agency’s Lead Renovation, Repair, and Painting Rule. This bill will also require the Department of Public Health to provide the Board with educational and outreach materials, and for the Board to make the materials available to contractors and consumers on its website.

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Consumer Protection

On January 1, 2022, per Senate Bill 241 (Umberg, Chapter 214, Statutes of 2021), the Board was authorized and directed by the governor and the Legislature to register noncertified shorthand reporter (CSR)-owned firms that offer court reporting services in California. The Board updated its databases and worked with the Legislature and stakeholders to clarify the law. The clarifications were set out in the budget trailer bill, allowing the Board to post applications for registration of mandatory non-CSR-owned firm registration as well as voluntary CSR-owned firm registration.

Technological Advancements

In early 2022, the Board applied for and was granted funds from the Technology Modernization Fund (TMF), which is administered by the California Department of Technology (CDT). Once agreements are signed between CDT and DCA, work will begin to obtain a vendor and begin the licensing and examination databases.

Communications and Outreach

In furtherance of the Board’s strategic plan, in February and March 2022, the Board held seminars to educate licensees on the role of the Board and answer questions about the implementation of firm registration.

NEW LEGISLATION

AB 156 (Committee on Budget, Chapter 569, Statutes of 2022), among other things, allows the Board to license individuals practicing shorthand reporting by means of voice writing. The Board must indicate the methodology used to meet examination requirements on licenses, though they must treat licensees equally regardless of the method of qualification. This bill also increases title protection by adding additional words and phrases associated with licensure.

SB 189 (Committee on Budget and Fiscal Review, Chapter 48, Statutes of 2022), among other things, allows for the registration of all shorthand reporting firms, not just corporations, and specifies that the initial annual fee for registration is \$500.00 until January 1, 2025. After that date, the fee must be the lesser of \$500.00 or the cost of administering the registration. The Board may adopt emergency regulations to implement this bill.

BOARD HIGHLIGHTS

RECIPROCITY

The Dental Board of California does not offer licensure as a dentist or registered dental assistant through reciprocity.

The Board does accept out-of-state dental licenses, in good standing, as a pathway to licensure through the Licensure by Credential application process if additional requirements are met. Requirements are:

- A completed application and payment of all fees.
- A current license issued by another state to practice dentistry that is not revoked, suspended, or otherwise restricted.
- Proof the applicant has either been in active clinical practice or has been a full-time faculty member in an accredited dental education program and in active clinical practice for a total of at least 5,000 hours in five of the seven consecutive years immediately preceding the date of application.
- A maximum of two years of clinical practice credit is allowed for a residency training program accredited by the American Dental Association Commission on Dental Accreditation. With two years of clinical practice, or a completed residency, the remainder of the five-year requirement may be fulfilled with a contract to teach or to practice in settings specified in Business and Professions Code section 1635.5(a)(3)(B) and section 1635.5(a)(3)(C).

- The applicant may not have failed the California licensure exam or the Western Regional Examining Board (WREB) clinical exam within the last five years. A letter from WREB stating that the applicant has not failed the exam must be submitted as proof.
- Fifty units of continuing education in the last two years, including current mandatory courses.

ACCOMPLISHMENTS

Board Leadership

The Board reappointed four members and appointed one to the Diversion Evaluation Committee. Additionally, the Board appointed two new members to the Dental Assisting Council.

Executive Officer Karen Fischer retired in December 2021 after serving in this position for eight years.

Updates to Regulations

Legislation permitting dentists to administer influenza and COVID-19 vaccinations (AB 526, Chapter 653, Statutes of 2021) was signed into law on October 8, 2021, and went into effect the same day. The emergency regulations approved by the Board were implemented on June 23, 2022.

On January 1, 2022, the licensure requirement for registered dental assistants in extended functions to complete a clinical and/or practical examination was repealed.

Consumer Protection

The number of individuals identifying themselves as board staff members or investigators and attempting to fraudulently obtain money from licensees increased greatly. The Board worked with law enforcement to stop scammers from receiving money from licensees. Also, an educational campaign was conducted to help licensees identify scams and acquire information on how to confirm valid communication.

The Board also partnered with local law enforcement to protect consumers from licensees who posed a danger due to criminal conduct. Cases involving sex offenses, license fraud, and drug offenses were investigated and action taken to protect the public from potential harm.

NEW LEGISLATION

There was no enacted legislation solely related to the Board.

Sunset Review:

Last review: 2018 | Next review: 2023

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code section 19171, registered dental hygienists who are licensed in good standing in a state other than California for five years or more may achieve “licensure by credential” rather than through examination.

ACCOMPLISHMENTS

Updates to Licensing

The Board worked to continue the temporary acceptance of a manikin-based clinical examination administered by the Central Regional Dental Testing Services, the Western Regional Examination Board, and the Commission on Dental Competency Assessments/American Board of Dental Examiners in lieu of and in addition to the live, patient-based clinical examinations.

The Board implemented an Alternative Pathway to Licensure Taskforce to research, review, and recommend alternative pathways available to obtain a California dental hygiene license that is different and in addition to the current examination process. The taskforce met several times over the year to report the research findings and to formulate a recommendation for the Board’s consideration.

Communications and Outreach

The Board continued to conduct its Board meetings via videoconference and found that meetings conducted in this format had a significant increase in participation compared to in-person meetings.

The Board conducted seven site visits related to the Dental Hygiene Educational Program. After addressing several minor corrections, all schools are in compliance.

The Board revised and updated its statutes book and posted it on the website in June to reflect the changes implemented as of January 1, 2022.

Updates to Regulations

The Board drafted and obtained approval of eight regulatory packages. The approved regulations affect the oversight of the dental hygiene educational programs. They also affect registered dental hygienists in alternative practice’s (RDHAP) ability to perform soft-tissue curettage and administer local anesthesia under certain conditions in specified locations, as well as report their required dental relationships with a licensed dentist at each license renewal. A regulatory package for RDHAPs also provided the process to approve coursework in radiographic decision making and interim therapeutic restorations.

NEW LEGISLATION

AB 2145 (Davies, Chapter 157, Statutes of 2022) will clarify that a registered dental hygienist in alternative practice may provide dental services, and provide oral health in-service training to staff, in long-term health care facilities.

BUREAU OF HOUSEHOLD GOODS AND SERVICES

Registers and regulates electronic and appliance repair businesses and has jurisdiction over the sale and administration of service contracts on various consumer products. Licenses and regulates the manufacture and sale (retail, wholesale, and import) of upholstered furniture and bedding, supply dealers, custom upholsterers, bedding sanitizers, and the manufacture of thermal insulation products, and tests for flammability and sanitization. Permits and regulates the transport of household goods and personal effects by household movers and brokers.

BUREAU HIGHLIGHTS

RECIPROCITY

The Bureau does not have reciprocity.

ACCOMPLISHMENTS

Consumer Protection

Since the establishment of the Household Movers Act in 2018, the Bureau has strived to increase its impact on consumer protection for the household mover industry each year. An effective method of meeting consumer protection mandates is to reunite consumers with their lost, and sometimes ransomed, household goods. In fiscal years 2018–19 and 2019–20, the Bureau helped over 30 consumers. In 2020–21, the Bureau helped 68 consumers. During 2021–22, the Bureau worked with multiple local, state, and federal agencies, as well as storage companies and household mover employees, to help 133 consumers retrieve their belongings.

In April 2022, the Bureau’s laboratory accreditations with International Accreditation Service and the National Voluntary Laboratory Accreditation Program were renewed. The accreditation enables the Bureau’s laboratory to continue conducting tests to determine if California and federal flammability standards for upholstered furniture and bedding, as well as performance standards for thermal insulation, are met.

Communications and Outreach

The Bureau began participating in Senior Scam Stopper events throughout the state along with the Contractors State License Board, the Department of Financial Protection and Innovation, and the California Department of Insurance. In addition, the Bureau met with district

attorney offices from Riverside, Los Angeles, San Diego, and San Bernardino counties, as well as multiple local law enforcement organizations to provide insight into unethical practices in the household moving industry.

The Bureau, in collaboration with DCA’s OPA, published the article “Change is Hard. Moving Shouldn’t Be” in the summer 2022 *Consumer Connection* magazine. The article offers useful tips on how to avoid potential pitfalls during stressful moves and what to do if consumers are harmed by moving companies.

Collaborations

The Bureau completed its first collaboration with the Federal Bureau of Investigation (FBI) on a household mover case. The FBI collaborated with several states, including California, Oregon, Nevada, New Jersey, and Texas to assist consumers in recovering lost belongings. The Bureau located belongings, verified owners, and worked with local law enforcement and storage companies to arrange for the release of household goods for dozens of consumers.

The Bureau’s laboratory continues work with the Department of Toxic Substances Control (DTSC) to ensure compliance with flame-retardant chemical content limits in upholstered furniture and juvenile products. Through continuous refinement of the Bureau’s screening criteria and product focus, the Bureau and DTSC doubled the number of samples analyzed over the previous fiscal year without increasing costs.

Notable Statistics

Shortly before the beginning of this fiscal year, the Bureau updated and renewed its citation issuance and Citation Review Conference (CRC) processes and procedures. Highlights include ensuring there is uniformity among staff throughout California to issue citations in a manner that encourages compliance and educates the businesses cited about informal appeals. The CRC process promises quick turnaround times for businesses to speak with a Bureau manager about their circumstances and present evidence of compliance to potentially reduce the fine. These changes resulted in more than 200 previously unlicensed businesses becoming licensed.

Bureau Leadership

On January 4, 2022, Justin Paddock was appointed as Bureau chief. His priorities are to improve staff retention and recruitment efforts, move more licensing and enforcement transactions online, and modernize the Bureau’s regulations and enforcement procedures and policies.

NEW LEGISLATION

AB 2956 (Committee on Transportation, Chapter 295, Statutes of 2022) is the transportation omnibus bill. Among other things, this bill updates outdated sections of the Vehicle Code to reflect the transfer of regulation of household movers from the Public Utilities Commission to the Bureau. The bill amends the outdated term “household goods carrier” and replaces it with “household mover,” and clarifies that household movers are exempt from requirements to register as a motor carrier of property if they have a household mover permit issued by the Bureau.

California Code of Regulations, Division 13, title 16, §§ 1300–1379.78

Sunset Review:

Last review: 2021 | Next review: 2023

BOARD HIGHLIGHTS

RECIPROCITY

The California Medical Practice Act does not allow for license reciprocity between states. Out-of-state applicants who are licensed in another state must apply and meet California licensing requirements before a license can be issued. Business and Professions Code sections 2135 and 2135.5 provide some exceptions when minimum requirements are deficient.

ACCOMPLISHMENTS

Updates to Regulations

Senate Bill 806 (Roth, Chapter 649, Statutes of 2021), the Board’s sunset bill, required the Board to increase licensing and renewal fees and made various other changes to the Medical Practice Act and Licensed Midwifery Practice Act of 1993.

Following the approval of SB 806 by the governor, the Board began implementing the various provisions of the bill, including:

- Informing all licensees of a new requirement to possess and report an email address to the Board.
- Recovering investigation and prosecution costs from disciplined physicians.
- Updating BreZE, application forms, and website content related to changes in fee amounts and licensure requirements.
- Working with the enforcement monitor approved by DCA’s director.

Website Enhancements

To increase efficiency and reduce expenses, the Board launched a digital Wallet License Generator on its website that allows licensees in a “current” license status to generate and print their own wallet license card. The new wallet cards feature a license-specific QR code allowing interested parties to instantly view real-time license status information and generate a PDF file that can be sent to employers or others as needed, saving the Board resources related to generating, printing, and mailing plastic cards.

Communications and Outreach

In July 2021, the Board launched a redesign of its public-facing website. Board staff designed the new website to conform with the latest web standards established by the California Department of Technology to build user-centered, accessible, and mobile-friendly government websites.

The website home page now has a simple and clean design that promotes compliance with the Americans with Disabilities Act and features faster load times. Staff retained some of the previous website’s most popular features including a news section that features the top three latest Board news items and an alert bar informing users of important developments.

The Board also warned licensees through online and email notification as well as its quarterly newsletter of multiple telephone scams targeting California physicians and provided guidance on next steps if they were scammed. In one scam, the caller impersonated a Board investigator, staff member, or other law enforcement agent. The scammer told the physician that their license had been suspended or a warrant had been issued for their arrest (sometimes both) due to criminal activity. The scammer indicated that the physician’s license would be suspended if they did not pay a fee.

Another scam targeting physicians involved criminals filing false disability insurance claims through the state’s Employment Development Department by using publicly available information.

To help prevent fraudulent activity, the Board suspended paper requests for a change of address and now requires most of its licensees to complete the change of address electronically on BreZE.

Updates to Legislation

To enhance its ability to protect California’s health care consumers, the Board sent a memo to the state Legislature with several Board-approved legislative requests designed to further the Board’s mission of consumer protection.

Among others, the legislative proposals included a request to increase physician licensing fees, lower the burden of proof in disciplinary matters, establish a public member majority for the Board, and increase consumer access to medical records. The Board participated in a Senate Business, Professions and Economic Development Committee hearing in May in which Board leadership spoke to lawmakers about certain Board proposals, answered their questions, and committed to continuing the dialogue regarding the requests.

NEW LEGISLATION

AB 1278 (Nazarian, Chapter 750, Statutes of 2022)

requires physicians to provide each patient, at their initial office visit, a written or electronic notice of the Open Payments database. The disclosure, which must include a link to the database website, must be signed by the patient and kept in their records. The bill also requires physicians to conspicuously post an Open Payments database notice in each location where they practice and, beginning January 1, 2024, on their website.

AB 1636 (Weber, Chapter 453, Statutes of 2022)

prohibits the Board from reinstating the license of a physician who had their license revoked or surrendered because they committed certain sex offenses or sexual misconduct with a patient. It expands current automatic revocation requirements to also include certain out-of-state convictions for sex offenses. This bill also allows the Board to deny a license to an applicant who was disciplined by another licensing board for sexual misconduct with a patient regardless of when the discipline occurred, removing the current seven-year limitation.

AB 1954 (Quirk, Chapter 232, Statutes of 2022)

prohibits physicians from automatically denying treatment or medication to a qualified patient based solely on a positive drug screen for tetrahydrocannabinol or report of medical cannabis use without first completing a case-by-case evaluation of the patient. Physicians could not be punished, or denied any right or privilege, for administering treatment or medication consistent with the standard of care to such patients.

AB 2098 (Low, Chapter 938, Statutes of 2022) specifies that the dissemination of misinformation or disinformation related to COVID-19 from physicians to their patients constitutes unprofessional conduct.

AB 2178 (Bloom, Chapter 329, Statutes of 2022) makes clarifying changes to the definition of an academic medical center as it relates to eligibility requirements for special faculty permits.

SB 923 (Wiener, Chapter 822, Statutes of 2022), among other things, updates cultural competency requirements for physicians to recommend more detailed topics related to transgender, gender diverse, and intersex patients.

SB 1440 (Roth, Chapter 510, Statutes of 2022) makes technical and clarifying changes to enforcement procedures used by the Board for processing complaints against licensed midwives, aligning the procedures with those used for physicians and surgeons. It allows the Board to proceed with field office investigations even if they are unable to obtain specified information and clarifies that certain review requirements won't impede emergency relief.

NATUROPATHIC MEDICINE COMMITTEE*

* As of January 1, 2023, the Naturopathic Medicine Committee will become the California Board of Naturopathic Medicine.

Licenses and regulates naturopathic doctors.

www.naturopathic.ca.gov

Staff: 1 civil servant position, 1 exempt

Licenses, Registrations, Certificates, and Permits: 1,124

Committee Membership: 2 public representatives, 5 licensees, 2 physicians: doctor of allopathic medicine (M.D.), and/or doctor of osteopathic medicine (D.O.)

Committee Leadership:

Rebecca Mitchell
Executive Officer

rebecca.mitchell@dca.ca.gov

Laws and Regulations:

Business and Professions Code, Division 2,
Chapter 8.2, §§ 3610–3686

California Code of Regulations, Division 40, title 16,
§§ 4200–4268

Sunset Review:

Last review: 2022 | Next review: 2026

COMMITTEE HIGHLIGHTS

RECIPROCITY

Per Business and Professions Code (BPC) section 3633, the Committee has reciprocity and may grant a license to an applicant who is licensed and in good standing as a naturopathic doctor in another state, jurisdiction, or territory in the United States. However, the applicant must provide proof they meet requirements outlined in BPC sections 3630 and 3631 and undergo background checks.

ACCOMPLISHMENTS

Sunset Review

The Committee submitted its *Sunset Review Report* to the Assembly Committee on Business and Professions, and the Senate Committee on Business, Professions and Economic Development in January 2022. In March 2022, the Senate committee convened a sunset review hearing. The Committee was represented by Chair Dr. Dara Thompson, N.D., Vice Chair Dr. Greta D’Amico, N.D., and Executive Officer Rebecca Mitchell. Effective January 1, 2023, the sunset bill (Committee on Business and Professions, Chapter 414, Statutes of 2022) will make the following changes:

- Changes the name of the Naturopathic Medicine Committee to the California Board of Naturopathic Medicine and places the new Board directly under DCA instead of the Osteopathic Medical Board of California.
- Provides that each appointing authority to the Board has the power to remove from office, at any time, any member of the Board appointed by that authority.

- Requires the Board to employ a full-time staff for enforcement responsibilities who will report directly to the executive officer.
- Authorizes the Board to accept any elective examination from the Naturopathic Physicians Licensing Examinations relevant to a licensee’s scope.
- Allows the North American Naturopathic Continuing Education Accreditation Council to be a continuing education approver for the Board.

The Committee continues to work with the Legislature to review the Committee’s activities to ensure consumer protection.

Communications and Outreach

The Committee, in collaboration with DCA’s Office of Public Affairs, created and launched social media platforms that provide information on the differences between licensed naturopathic doctors and unlicensed naturopathic practitioners. The Committee believes that the outreach campaign will further protect the consumers of California against unlicensed activity.

Updates to Regulations

There were two new regulations in 2021–22. The first is the “Notice to Consumers,” approved by the Office of Administrative Law (OAL) in August 2021, which requires naturopathic doctors to post a notice informing their patients of the appropriate regulatory body to contact regarding the licensee.

The second regulation approved this year was the “Substantial Relationship and Rehabilitation Criteria,” approved by OAL in August 2021, which added references to professional misconduct. This regulation is consistent with the requirements of Assembly Bill 2138 (Chiu, Chapter 995, Statutes of 2018). AB 2138 was enacted to reduce licensing and employment barriers for people who are rehabilitated. The regulatory amendments made by the Committee further that goal by adopting criteria that emphasizes an applicant’s or licensee’s rehabilitative efforts and what is necessary to show rehabilitation.

NEW LEGISLATION

AB 2685 (Committee on Business and Professions, Chapter 414, Statutes of 2022) is the sunset bill for the Committee. This bill will, among other things, change the name of the Committee to the California Board of Naturopathic Medicine and extend the Board’s sunset date to January 1, 2027. This bill will require the Board

to employ a full-time staff position under the direction of the executive officer whose responsibilities shall include enforcement of the Naturopathic Doctors Act. This bill will also make various changes to the Board’s licensing, education, and continuing education requirements.

SB 994 (Jones, Chapter 713, Statutes of 2022) revises the definition of licensed vocational nurses to include individuals practicing under the direction of a naturopathic doctor, as specified. The bill requires naturopathic doctors who supervise licensed vocational nurses to establish a written supervision protocol, listing the practice agreement, describing the duties and responsibilities of the licensed vocational nurse, and identifying the procedure or protocol for furnishing or ordering drugs, if applicable to the naturopathic doctor’s practice. This bill also prohibits licensed vocational nurses from performing specified cosmetic procedures and unsupervised intravenous therapies.

Laws and Regulations:

Business and Professions Codes §§ 2570–2571

California Code of Regulations, Division 39, title 16, §§ 4100–4187

Sunset Review:

Last review: 2022 | Next review: 2026

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Sunset Review

Prior to the March 2022 joint hearing before the Senate Committee on Business, Professions and Economic Development and the Assembly Committee on Business and Professions, the Board prepared and submitted its sunset report. At the hearing, several issues were discussed including the Board’s fund reserve and future fiscal solvency, the potential for phasing out the advanced practice approval process, the mental and behavioral health care needs of the profession, as well as the Board’s staffing levels.

As a result, Assembly Bill 2671 (Berman, Chapter 290, Statutes of 2022) extended the Board’s operations to January 1, 2027. The bill also established occupational therapy professional corporations and identified 14 health care providers that could be shareholders, officers, or directors of that corporation, exempted the Board from being required to issue a certificate of registration to occupational therapy professional corporations, authorized occupational therapists to serve as shareholders and officers of professional medical corporations, and made other technical changes.

Updates to Licensing

The Board appointed an ad hoc committee and a workgroup to address priority practice issues affecting the occupational therapy profession.

The ad hoc Occupational Therapy Doctorate (OTD) Committee addressed the differences between entry-level and post-professional doctoral programs as they relate to licensure and supervision of the individuals completing their doctoral capstone. The committee recommended clarifying statutory language for the Board to consider.

The OTD Committee also asked the Board to determine a maximum number of occupational therapy students that could be supervised by an occupational therapist who is concurrently supervising occupational therapy assistants and pursue the necessary statutory or regulatory changes.

The Fieldwork Communications Workgroup discussed issues relating to the challenges of California occupational therapy education programs finding placements for students to complete their clinical experience (fieldwork) required for graduation. Working with the California Occupational Therapy Fieldwork Council, the workgroup developed a letter for the Board to consider sending to all occupational therapists and occupational therapy assistants holding active licenses. The letter encouraged licensees to supervise fieldwork students to ensure California students can graduate on a timely basis and enter the profession to offset the loss of licensees due to retirement or relocation.

As the Board considers access to care a consumer-protection issue, the Board supported the California occupational therapy education programs by mailing that letter to nearly 20,000 licensees explaining the benefits of supervising students.

NEW LEGISLATION

AB 2671 (Berman, Chapter 290, Statutes of 2022) is the sunset bill for the Board. This bill extends the sunset date for the Board to January 1, 2027, increases the limit on the total number of occupational therapy assistants that can be supervised by an occupational therapist, and allows occupational therapists to form a professional medical corporation.

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Updates to Enforcement

The Board’s Enforcement Unit continues to address unlicensed practice within opticianry, having assumed enhanced authority for these professions through Assembly Bill 1534 (Committee on Business and Professions, Chapter 630, Statutes of 2021). These changes clarify opticianry registrations and bring licensure parity for all out-of-state ophthalmic lens dispensers. AB 1534 also expanded and clarified the definition of unprofessional conduct.

The Enforcement Unit is reducing the backlog of investigations regarding California-based optical retailers that fail to obtain ophthalmic device dispensing business registrations, registrations for out-of-state (and sometimes international) nonresident ophthalmic lens dispensing businesses, and substandard practice of individual contact and spectacle lens dispensers.

To communicate the consequences of operating without proper licensure, the Board has increased administrative action, issuing citations with a substantial monetary fine and an order of abatement requiring registration with the Board to continue practice.

Communications and Outreach

The Board is active on social media, utilizing Facebook, Instagram, LinkedIn, and Twitter. Social media widens outreach to notify licensees about emerging scams and fraud, shares tips with new graduates for application, encourages attendance by stakeholders at upcoming Board and committee meetings, and recruits subject matter experts to assist the Board with case review and occupational analyses.

The Board began publishing a quarterly enforcement bulletin. “The Bulletin” provides helpful information to licensees regarding compliance with the Optometry and Opticianry Practice Acts and what to do if issued a citation. The intent is to improve consumer protection and increase response time to investigation inquiries. Additionally, the bulletin intends to increase compliance with provisions regarding advertising, prevent unlicensed practice by new graduates, and ensure proper licensure of practice locations.

For the 2022 optometry school graduation season, the Board implemented a proactive outreach plan to keep applicants informed as the Board received their transcripts and national board test scores, established Department of Justice and FBI clearance, and completed the application review process.

Updates to Licensing

The Board implemented an update to the optometrist application within BreZE (the Board’s system for paperless application) that prevents submission prior to the applicant’s graduation from an accredited school of optometry. In prior years, students applied 10–12 months prior to graduation, artificially inflating the application processing time before qualifying for the license. This change better reflects application processing times and helps to reveal actionable process improvements.

NEW LEGISLATION

AB 2574 (Salas, Chapter 596, Statutes of 2022) restores statutory authorities that were erroneously removed by AB 407 (Salas, Chapter 652, Statutes of 2021). It authorizes an optometrist to independently initiate immunizations if they are immunization certified, and to diagnose and stabilize patients with acute angle closure glaucoma. It also clarifies that optometry or ophthalmology assistants may perform preliminary subjective refraction procedures as part of their training.

BOARD HIGHLIGHTS

RECIPROCITY

Per Business and Professions Code section 2153.5, the Board accepts licensees from any state that requires passage of the Comprehensive Osteopathic Medical Licensing Examination (COMLEX) levels 1, 2, and 3 as its written examination for licensure. Any other state written examination may be considered for approval and acceptance by the Board on a case-by-case basis.

ACCOMPLISHMENTS

Updates to Licensing

The Board's licensing requirements significantly changed due to the provisions of Senate Bill 806 (Roth, Chapter 649, Statutes of 2021) that became effective on January 1, 2022. SB 806 changed the amount of postgraduate training required for initial licensure from 36 to 12 months, but requires new licensees to demonstrate completion of 36 months of postgraduate training at the time of their first renewal. The Board seamlessly implemented the provisions of SB 806 with the assistance of DCA's Office of Information Services.

The Board's applications for full, unrestricted licenses increased significantly, from 699 in fiscal year 2020–21 to 1,229 in 2021–22, representing a 76% increase. While the significant increase was a result of SB 806 changes, it also supports the Board's position that the osteopathic profession is continuing to grow. Even with the significant increase in applications received, the Board was able to ensure that the applications were processed within an acceptable time frame by redirecting resources from other units.

Communications and Outreach

The Board’s executive director attended several outreach events to educate and inform stakeholders on ongoing developments. Specifically, the executive director attended Osteopathic Physician and Surgeons of California town hall events and presented to osteopathic schools in California. The topics included, but were not limited to, changes to the Board’s licensing and continuing medical education requirements and the change to an automated fingerprint process.

Structural Changes to the Board

The Board dissolved its internal Cashiering Unit and shifted the processing of all of its payments to the DCA Central Cashiering Unit. This allowed the Board to increase efficiency by redirecting its one cashiering position to process the increasing licensing workload and function as the front desk receptionist.

Collaborations

The Board collaborated with the California Department of Public Health, Department of Justice, and Medical Board of California to implement the vaccine exemption bills. These bills created a process for physicians and patients to electronically request vaccine exemptions for children. The bills also provided, as a condition of submitting a request, that parents submit an electronic consent form to release medical records. This collaboration created a more efficient process to request vaccine exemptions while being consistent with the Board’s mission of protecting the public.

NEW LEGISLATION

AB 1278 (Nazarian, Chapter 750, Statutes of 2022) requires physicians to provide each patient, at their initial office visit, a written or electronic notice of the Open Payments database. The disclosure, which must include a link to the database website, must be signed by the patient and kept in their records. The bill also requires physicians to conspicuously post an open payments database notice in each location where they practice and, beginning January 1, 2024, on their website.

AB 1636 (Weber, Chapter 453, Statutes of 2022) prohibits the Board from reinstating the license of a physician who had their license revoked or surrendered because they committed certain sex offenses or sexual misconduct with a patient. It expands current automatic revocation requirements to also include certain out-of-state convictions for sex offenses. This bill also allows the Board to deny a license to an applicant who was

disciplined by another licensing board for sexual misconduct with a patient regardless of when the discipline occurred, removing the current seven-year limitation.

AB 1954 (Quirk, Chapter 232, Statutes of 2022) prohibits physicians from automatically denying treatment or medication to a qualified patient based solely on a positive drug screen for tetrahydrocannabinol or report of medical cannabis use without first completing a case-by-case evaluation of the patient. Physicians could not be punished, or denied any right or privilege, for administering treatment or medication consistent with the standard of care to such patients.

AB 2098 (Low, Chapter 938, Statutes of 2022) specifies that the dissemination of misinformation or disinformation related to COVID-19, from physicians to their patients, constitutes unprofessional conduct.

SB 923 (Wiener, Chapter 822, Statutes of 2022), among other things, updates cultural competency requirements for physicians to recommend more detailed topics related to transgender, gender diverse, and intersex patients.

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Strategic Plan

The Board completed a comprehensive update of its strategic plan, revising existing goals and adding new priorities in response to changes occurring in public health, the marketplace, legislation, and other areas. The strategic plan guides the Board in its mission to protect and promote the health and safety of Californians.

Structural Changes to the Board

The Board established two ad hoc committees to study important policy matters in the pharmacy profession. The Medication Error Reduction and Workforce Committee was created to consider the connection between medication errors and the issues of burnout, extreme fatigue, and poor quality of life reported by pharmacy workers. The Board also established a Standard of Care Committee to discuss whether moving to a standard of care enforcement model would be feasible and appropriate for the regulation of pharmacy, and to make recommendations to the Legislature about the outcome of these discussions.

Board Provided Training Programs

The Board created a free, online training webinar for pharmacists to furnish HIV pre-exposure (PrEP) and

post-exposure prophylaxis (PEP), pursuant to California Code of Regulations, title 16, section 1747. Pharmacists who complete the webinar and an assessment will be able to independently initiate and furnish HIV PrEP/PEP, improving access to HIV medications.

The Board hosted full-day training events for California pharmacists on preventing prescription drug abuse and drug diversion. The training enables pharmacists to recognize drug diversion in pharmacies and to help consumers prevent drug abuse in their communities.

Important Meetings

The Board hosted a dozen virtual listening sessions and used a short survey to solicit comments from pharmacy technicians and pharmacists in advance of a pharmacy technician summit convened in April 2022.

Communications and Outreach

The Board provided extensive guidance to help pharmacists comply with Business and Professions Code section 688, related to new electronic data prescriptions requirements.

The Board responded to nine wildfire and winter storm emergencies declared by Governor Gavin Newsom in multiple counties by emailing alerts reminding pharmacists of state laws related to furnishing prescription drugs during an emergency, providing emergency refills without prescriber authorization, and operating a mobile pharmacy in a declared emergency area, allowing for continuity of patient care for displaced patients.

The Board issued 245 email alerts to licensees regarding drug recalls, drug withdrawals, and other warnings to protect consumers by instantly notifying licensees and the public about potentially hazardous prescription medications and products.

Updates to Regulations

The Board amended a regulation related to reporting drug losses (California Code of Regulations, title 16, section 1715.6).

The Board amended a regulation related to pharmacists administering vaccines (California Code of Regulations, title 16, section 1746.4) to eliminate a redundant requirement for pharmacists who administer vaccines under specified conditions.

NEW LEGISLATION

AB 852 (Wood, Chapter 518, Statutes of 2022) prohibits a pharmacy, pharmacist, or other practitioner authorized to dispense or furnish a prescription from

refusing to dispense or furnish an electronic prescription solely because the prescription was not submitted using means compatible with their proprietary software. This bill also permits a pharmacy, pharmacist, or other authorized practitioner to decline to dispense or furnish an e-prescription submitted via software that fails to meet specified criteria, and specifies additional exceptions to ordinary e-prescription requirements.

AB 1852 (Patterson, Chapter 111, Statutes of 2022) adds licensed hospice facilities to the authorized list of locations that may utilize an automated drug delivery system.

AB 2194 (Ward, Chapter 958, Statutes of 2022) requires continuing education requirements for pharmacists and pharmacy technicians to include at least one hour of participation in a cultural competency course, as defined, beginning January 1, 2024. This bill also prohibits a pharmacy technician license from being renewed unless the applicant submits proof that the cultural competency course has been completed.

SB 872 (Dodd, Chapter 220, Statutes of 2022) authorizes a county, city and county, or a special hospital authority, to operate mobile units to provide medication to homeless individuals if they have a valid prescription. These mobile units will be inspected and regulated by the Board as an extension of these entities' existing pharmacy license.

SB 1259 (Dodd, Chapter 245, Statutes of 2022) authorizes licensed pharmacists to furnish any opioid antagonist approved by the federal Food and Drug Administration rather than just naloxone hydrochloride. This bill will also require pharmacists to complete continuing education on the use of opioid antagonists, rather than solely on the use of naloxone.

SB 1346 (Becker, Chapter 886, Statutes of 2022), among other things, establishes a pilot program until January 1, 2030, in the counties of Santa Clara and San Mateo, and the City and County of San Francisco, related to the collection and distribution of surplus medication. This pilot program will remove current requirements limiting the number of times donated medication can be transferred, how donated medication must be packaged, and whether donated medication can be comingled with other prescriptions for participating entities. This bill also includes facilities licensed by the Department of Social Services, the Department of Public Health, the Department of Health Care Services, the Department of Corrections and Rehabilitation, the Department of Juvenile Justice, and the Department of State Hospitals on the list of accepted donor facilities.

Business and Professions Code §§ 2600–2696
California Code of Regulations, Division 13.2, title 16,
§§ 1398–1399.99.4

Sunset Review:

Last review: 2022 | Next review: 2026

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code (BPC) section 2636.5, applicants for licensure as a physical therapist or physical therapist assistant who are licensed as such in another state, district, or territory of the United States, approved by the Board, may become licensed without a physical therapy or physical therapist assistant written examination if they meet all the requirements, including those licensing requirements prescribed by the Board. However, these individuals must successfully pass the California Law Examination prior to becoming licensed. Pursuant to BPC section 2639, applicants who are graduates of an approved education program or substantiated as a graduate of an approved education program and who have filed a complete application for licensure with the Board may be awarded “license applicant” status by the Board. A physical therapist or physical therapy assistant applicant shall practice under the direct supervision of a licensed physical therapist as a “license applicant.”

ACCOMPLISHMENTS

Sunset Review

The Board successfully completed the sunset review process, working closely with staff and members of the Senate and Assembly Business and Professions Committees. The Board’s sunset hearing occurred in March 2022. Board members and staff were intricately involved in the preparation of the *Sunset Review Report*.

The Board’s sunset legislation, Senate Bill 1438 (Roth, Chapter 509, Statutes of 2022), extended the sunset date for the Board until January 1, 2027, and added telehealth to Business and Professions Code section 2620.1 of the Physical Therapy Practice Act, authorizing physicians and surgeons to conduct in-person and telehealth patient examinations and evaluations of the patient’s condition in connection with their approval of the physical therapist’s plan of care. The Board appreciated the opportunity to work with the Legislature to review its accomplishments and progress to ensure the Board meets its mandate of consumer protection.

Updates to Regulations

The Office of Administrative Law approved the Board’s Assembly Bill 2138 (Chiu, Chapter 995, Statutes of 2018) implementation regulations package, which requires boards to amend their existing regulations governing substantially related crimes or acts as well as rehabilitation criteria. This regulation package went into effect November 30, 2021, and provides clarity to the public and licensees on specific criteria used to determine whether a conviction is substantially related to the practice of physical therapy.

The Office of Administrative Law approved the Board’s disciplinary guidelines regulation package, which incorporates by reference the seventh edition of the disciplinary guidelines that the Board uses for issuing citations and imposing discipline. This regulation package went into effect April 1, 2022.

Communications and Outreach

The Board increased outreach by 24% since last fiscal year. Outreach consisted of presentations educating applicants and licensees on laws and regulations, continuing education requirements, and the application process. The Board presented to 39 of the 40 physical therapist and physical therapy assistant programs. When the Board developed its 2018–2022 Strategic Plan, there were 32 physical therapist and physical therapy programs, and one of the goals was to present to all of them. The Board achieved this goal and has continued to provide outreach to new programs as they become accredited. It also continues to visit graduating classes on a yearly basis to provide outreach and training.

NEW LEGISLATION

SB 1438 (Roth, Chapter 509, Statutes of 2022) is the sunset bill for the Board. This bill extends the Board’s authority to enforce and administer the Physical Therapy Practice Act, and appoint an executive officer, until January 1, 2027. This bill also authorizes a physician and surgeon or podiatrist to conduct a telehealth patient examination and evaluation of the patient’s condition in order to evaluate the patient’s need for physical therapy services.

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Communications and Outreach

In 2021, the Physician Assistant Board collaborated with DCA's PDE to develop and select its logo. The new logo better represents the Board's purpose and mission to the public. The Board adopted a modern logo incorporating the Board's name and the rod of Asclepius, which is a traditional symbol representing healing and medicinal arts.

In February 2022, Board staff attended the California Academy of PAs conference. Staff was available to answer licensee and student questions and disseminate laws and regulations booklets relating to the practice of physician assistants. The Board is looking forward to conducting more outreach events throughout the year to further the Board's strategic goal of informing consumers, licensees, applicants, and other stakeholders about the practice and regulation of the physician assistant profession.

The Board also created a school presentation application, which is a fillable PDF available on the Board's website. This application furthers the Board's outreach efforts as it is a method for California schools to request a presentation from the Board.

As part of its continuing outreach efforts, the Board published its first edition of the Physician Assistant Board electronic newsletter, "Insider," in April 2022, in collaboration with DCA's PDE. The current edition and future editions can be found on the Board's website

and social media accounts. The newsletter is another method of communication used to provide important information and Board updates to applicants, licensees, and consumers, while bringing more awareness to online services offered by the Board.

Updates to Licensing

In collaboration with DCA’s OIS, the Board modified BreEZe to allow licensees to request and submit payments for license verifications online. This effort not only reduced mail and cashiering time frames, but also significantly increased processing efficiency. While the Board strongly encouraged electronic submissions for license verification requests, it was cognizant of the need to maintain a paper option to ensure ease of access for all stakeholders.

Updates to Regulations

Amended section 1399.616 of title 16 of California Code of Regulations (CCR)—Approved Continuing Medical Education Programs; effective April 1, 2022.

Assembly Bill 241 (Kamlager-Dove, Chapter 417, Statutes of 2019) amended Business and Professions Code (BPC) section 3524.5 to require continuing education courses for physician assistants that contain a direct patient care component to include instruction in the understanding of implicit bias and the promotion of bias-reducing strategies. This action updates the Board’s current regulations to require that, for a course to be approved to meet the continuing medical education requirements for physician assistants, it must include curriculum including an understanding of implicit bias, pursuant to BPC section 3524.5.

Amended section 1399.523.5 of title 16 of CCR—Required Actions Against Registered Sex Offenders; effective July 1, 2022.

Effective July 1, 2020, under the provisions of AB 2138 (Chiu, Chapter 995, Statutes of 2018), the Board’s existing authority to deny an initial applicant a license based upon a substantially related criminal conviction significantly changed. This action updates the Board’s current regulations to be consistent with this recently enacted legislation and to more accurately reflect the Board’s authority to consider denials, discipline, or petitions for reinstatement, or modification of penalty for individuals required to register as a sex offender under California law or its equivalent in another state or territory, or under military or federal law.

NEW LEGISLATION

There was no enacted legislation solely related to the Board.

PODIATRIC MEDICAL BOARD OF CALIFORNIA

BOARD HIGHLIGHTS

RECIPROcity

Per Business and Professions Code section 2488, an applicant may be eligible for licensure in California if they are licensed as a doctor of podiatric medicine in any other state and meet the following requirements:

- Pass Part III of the national examinations within the last 10 years.
- Satisfactorily complete at least one year of postgraduate training.
- Submit fingerprints and obtain criminal record clearance from the California Department of Justice and the FBI (applicants outside of California may opt to obtain clearances utilizing Live Scan).
- Provide verification of a license in good standing from all states or counties in which a medical license has been held.
- Request a disciplinary databank report from the Federation of Podiatric Medicine be sent directly to the Board.

ACCOMPLISHMENTS

Communications and Outreach

The Board released a new edition of its yearly newsletter, "Footnotes," which covers issues of interest to the Board's licensees, stakeholders, and related entities. Articles were submitted by staff, podiatric residents, and individuals at the Board's related specialty organization, the California Podiatric Medical Association.

Licenses and regulates doctors of podiatric medicine.

www.pmbc.ca.gov

Staff: 4 civil servant positions, 1 exempt

Licenses, Registrations, Certificates, and Permits: 2,675

Laws and Regulations:

Business and Professions Code §§ 2460–2499.8

California Code of Regulations, Division 13.9, title 16, §§ 1399.650–1399.732

Sunset Review:

Last review: 2020 | Next review: 2025

The Board continued to provide timely information to the public through its website, www.pmbc.ca.gov, and through its Facebook and Twitter accounts. Topics of importance included updates to the Controlled Substance Utilization Review and Evaluation System and other requirements concerning new prescribing compliance standards, COVID-19 notices, and other topics. Additionally, the Board increased its Listserv participation and has utilized distribution of these messages with increased responses from recipients.

Updates to Licensing

The Board reduced its carbon footprint by encouraging licensees to utilize the electronic options on its website. A reminder postcard is sent to licensees as a renewal notice rather than the hard-copy packet. Staff has reported decreased hard-copy submissions and reduced processing times. Requests for duplicate licenses and resident license verification have also become significantly more automated. Financial transactions regarding licensing activities continue to become more efficient through electronic automation.

Additionally, the Board implemented the ability to issue temporary licenses for the spouses and domestic partners of active-duty members of the U.S. armed forces assigned to active duty in California to help ensure a smoother transition for them and their families.

NEW LEGISLATION

AB 1704 (Chen, Chapter 580, Statutes of 2022) authorizes the Department of Public Health to issue a limited permit in podiatric radiography authorizing radiography of the foot, ankle, tibia, and fibula under the supervision of a doctor of podiatric medicine. Before receiving a permit, an individual would need to complete specified education and training requirements.

BUREAU HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Strategic Plan

The Bureau adopted a new strategic plan to guide its efforts through 2026. Touching on every aspect of Bureau operations, the plan includes increased focus on improved organizational effectiveness and collaboration, both internally with Bureau staff and externally with stakeholders and partners. Leveraging knowledge and expertise will support the Bureau’s efforts to protect consumers and support quality postsecondary education offerings. Similarly, the plan includes increased emphasis on using data and evidence to shape Bureau operations and provide useful and usable information to current and prospective students and the public.

In line with these priorities, the Bureau has begun regularly meeting with several other government agencies, including DCA and its other boards and bureaus, to discuss routine and ongoing issues of cross-jurisdictional and shared interest. The goal of these partnerships is to identify areas where early and consistent communication can improve outcomes for consumers and more timely address licensee violations.

Updates to Regulations

Throughout 2021–22, the Bureau worked to finalize regulations implementing California Education Code section 94892.6, which requires approved institutions to report student-level information about each of their

graduates. The purpose of the data collection is to provide consumers with information about the labor-market outcomes of each approved program, which the Bureau will obtain through collaboration with the California Employment Development Department, to aid in consumer choice.

Finalizing the regulations, which involved substantial changes to the Bureau’s data collection systems, is the first of many steps of implementation. Pursuant to the regulations, institutions were to begin reporting the newly required information in August 2022. In addition to facilitating consumer access to verified, program-level data for institutions approved to operate by the Bureau, the student-level information collected will be added to California’s Cradle-to-Career System in future years. This will enable comparisons across college sectors (including public and nonprofit institutions that do not require Bureau approval) and better facilitate data-informed decision-making by policymakers.

Sunset Review

The Bureau’s sunset review was scheduled to take place in 2022, after a postponement in 2020 and a one-year extension in 2021. The Bureau and DCA engaged with the legislative committees on ideas to strengthen the Bureau’s fiscal condition and enforcement capabilities. The Bureau’s sunset bill, Senate Bill 1433 (Roth, Chapter 554, Statutes of 2022), reauthorizes the Bureau for four years (see more below). Additionally, the 2022–23 California State Budget included \$24 million in general fund monies for the Bureau, allocated over three years, to ensure fiscal stability and support its efforts to develop a more sustainable approach to funding going forward.

NEW LEGISLATION

SB 1433 is the sunset bill for the Bureau, which extends the Bureau’s operations for four years, until January 1, 2027. The bill, among other things: 1) authorizes the Bureau to determine conduct that constitutes limited physical presence; 2) automatically terminates an institution’s approval to operate on the date of closure and prevents a terminated license from being reinstated; 3) expands prohibited business practices; 4) authorizes the Bureau to deny applications from institutions owned or managed by individuals who violated the California Private Postsecondary Education Act of 2009 at prior institutions; 5) clarifies the definition of “to operate” to include the enrollment of Californians by institutions based outside of the state; 6) addresses situations where accrediting agencies lose federal recognition; 7) addresses situations where institutions lose accreditation

by a recognized agency; 8) subjects changes to “person in control” to the substantive changes requirements requiring Bureau approval; 9) automatically suspends Bureau approval of programs that lose approval of required state licensing agencies; and, 10) allows out-of-state public institutions that maintain a physical presence in California to apply for Bureau approval to operate.

OFFICE OF STUDENT ASSISTANCE AND RELIEF

(An office within the Bureau for Private Postsecondary Education)

Provides students with information on their rights when attending a private college, filing a school complaint, resources available including potential reimbursement from the Student Tuition Recovery Fund (STRF), and how to access state and federal relief programs.

www.osar.bppe.ca.gov

Office Leadership:

Scott Valverde

Chief, Office of Student Assistance and Relief

scott.valverde@dca.ca.gov

OFFICE HIGHLIGHTS

ACCOMPLISHMENTS

Communications and Outreach

In 2021–22, the Office of Student Assistance and Relief (OSAR) served an estimated 17,000 California students. OSAR coordinated 55 email outreach campaigns and led four workshops for students who attended schools that were approved by the Bureau for Private Postsecondary Education (BPPE) and then subsequently closed or discontinued educational programs. Through these workshops and other outreach efforts, OSAR connected with 7,762 students to inform them of their rights and OSAR’s services. This year, students filed approximately 360 new Student Tuition Recovery Fund (STRF) claims with BPPE. OSAR continued to work closely with BPPE’s STRF Unit to help ensure students’ claims were filed completely, timely, and accurately.

To assist prospective students with making informed choices related to postsecondary education opportunities, OSAR provided outreach at 36 events throughout the state or virtually on the following topics: an overview of OSAR’s free services, making an informed decision in selecting a college, how to pay for college, how to strategically research educational programs, and how to best utilize military education benefits. OSAR also participated in 29 California Department of Veterans Affairs civilian transition outreach events for servicemembers on military installations throughout the state.

OSAR successfully partnered with the Department of Financial Protection and Innovation’s (DFPI) newly created ombuds or ombudsperson to collaborate on shared outreach strategies. This effort resulted in OSAR

participating in six DFPI events, including outreach planning and partner workgroup meetings, as well as public webinars on topics such as the Public Service Loan Forgiveness Program and resources for student-loan borrowers.

Important Meetings

OSAR continues to play a leading role in the postsecondary landscape in California, in part by convening and leading two OSAR outreach partners' roundtables in 2021–22 with the U.S. Department of Education, California Department of Veterans Affairs, DFPI, California Community Colleges Chancellor's Office, and the California Student Aid Commission. This group's goal is to work collectively to ensure the respective agencies are providing the best possible outreach services and meaningful information to prospective, current, and past students of postsecondary institutions throughout California.

Sunset Review:

Last review: 2019 | Next review: 2024

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code sections 6759 and 8748, an engineer or land surveyor licensed in another state or country may apply for licensure in California by comity. Comity applicants must submit a complete application including work descriptions, references that can verify the work experience, college transcripts (optional), and verification of successful examination in another state.

California accepts results of the National Council of Examiners for Engineering and Surveying (NCEES) exams for the practice act branches of civil, electrical, and mechanical engineering, the title act engineering branches, except for traffic, for which there is no national NCEES examination, and the NCEES Principles of Surveying examination for land surveying. Civil engineering applicants must also pass the California Seismic Principles and Engineering Surveying exams, which are both mandated by statute. Land surveying applicants must pass the California Professional Land Surveying examination, as required by statute. In addition, all comity applicants must take and pass the California Laws and Board Rules examination. If the home state has waived the Fundamentals of Engineering or Fundamentals of Surveying examination, the application is evaluated to see if the home state’s waiver matches California’s waiver requirements; if not, the applicant must pass the respective fundamentals examination or have 14–17 years of experience in addition to a degree in engineering or surveying, respectively.

Pursuant to Business and Professions Code section 7847, the Board may accept out-of-state or foreign registration

as qualification to license an applicant as a geologist or geophysicist so long as the applicant’s qualifications meet the requirements to become a professional geologist or geophysicist in California, including meeting the qualifying requirements for education, experience, and examinations.

ACCOMPLISHMENTS

Strategic Plan

The Board developed a new strategic plan by initiating a stakeholder survey and planning workshops. During the planning process, the Board reflected upon and responded to recent changes in society and technology, as well as in its regulated professions. Increased recognition of the importance of diversity, equity, and inclusion of underserved communities led to the expansion of the Board’s list of values and the development of important new objectives. The Board’s ongoing rollout of its new online application/licensing portal, BPELSG Connect, facilitated development of several objectives designed to meet needs identified during internal and external surveys conducted early in the strategic planning process.

Technological Advancements

In November 2021, the Board launched release 3.5 of its BPELSG Connect online platform, which features the addition of submitting and processing both civil engineer and land surveyor license applications and refinements to existing application functionality. The new functionality allowed existing legacy applicants to apply to the Board to schedule state-specific examinations and reexaminations. In addition, it automated the authorization to test email to transmit examination eligibility within the BPELSG Connect platform.

From November 2021 through June 2022, the Board received and approved over 1,800 requests for examination and/or reexamination through BPELSG Connect. In addition, the Board received a record number of initial license applications. Since implementing BPELSG Connect for license renewals in January 2021, the Board has seen a nearly 42% increase in online participation for renewals, with the highest level of participation (90% of renewals processed) in June 2022. Additional functionality within release 3.5 of BPELSG Connect included enhancement of the Board’s initial complaint submittal process by allowing enforcement staff to manage and monitor investigation cases from initial assignment to completion of the investigation.

NEW LEGISLATION

SB 1120 (Jones, Chapter 302, Statutes of 2022) will: 1) require applicants to provide the Board with their email address, if available, and notify the Board if that email address changes; 2) clarify that unlicensed individuals cannot offer professional engineering and land surveying services; and 3) delete the requirement that the Board provide renewal notices to all licenses within 60 to 90 days of license expiration.

Sunset Review:

Last review: 2018 | Next review: 2023

BUREAU HIGHLIGHTS

RECIPROCITY

The Bureau does not have reciprocity.

ACCOMPLISHMENTS

Updates to Licensing

Bureau staff reduced renewal processing times by 52% over the previous fiscal year by encouraging licensees to submit initial and annual statements via email. To enhance applicant and licensee understanding of the licensure process, Bureau staff updated renewal forms to reflect recent statutory changes and updated licensure and renewal information on its website.

Strategic Plan

After reviewing its current strategic plan goals, the Bureau collaborated with its Advisory Committee to develop and distribute a survey to its staff, Advisory Committee members, and stakeholders in preparation for a new strategic plan in 2023.

Updates to Enforcement

Bureau staff updated processes by: (1) restructuring the internal tracking system for complaints and enforcement actions with the goal of ensuring appropriate prioritization of complaints and investigations through a more structured review process, and (2) identifying enforcement tasks that can be completed in conjunction with similar tasks to maximize staff time. Staff also improved the

complaint submittal process, making it easier and less costly to file complaints by encouraging complainants to submit documents electronically through the cloud instead of by mailing physical copies.

Communications and Outreach

The Bureau worked with DCA’s OIS to improve reporting on its website of the aggregate dollar amount managed by licensees as reported on their annual statements. The Bureau also disseminated two newsletters, providing key updates about Bureau activities with stakeholders.

Updates to Regulations

The Bureau began promulgating regulations to provide retired and inactive statuses to its licensees and worked with the Office of Administrative Law to improve the draft regulatory text. The Bureau also began promulgating regulations in response to new continuing education requirements and anticipates the proposed regulations to be approved by the Office of Administrative Law in 2023.

NEW LEGISLATION

SB 1024 (Jones, Chapter 612, Statutes of 2022)

commencing January 1, 2024, authorizes a conservator, agent under a power of attorney, representative of the estate, trustee of a trust, or interested person, to petition for the appointment of a professional fiduciary practice administrator to act as a temporary professional fiduciary when a professional fiduciary either becomes incapacitated or dies and a vacancy exists. The bill includes professional fiduciary practice administrators in the definition of “professional fiduciary.” The bill also clarifies that professional fiduciary practice administrators are professional fiduciaries regulated by the Bureau.

BOARD OF PSYCHOLOGY

Licenses and regulates psychologists and psychological associates.

www.psychology.ca.gov

Staff: 27.3 civil servant positions, 1 exempt

Licenses, Registrations, Certificates, and Permits: 25,749

Board Membership: 4 public representatives, 5 licensees

Board Leadership:

Antonette Sorrick <i>Executive Officer</i> antonette.sorrick@dca.ca.gov	Jonathan Burke <i>Assistant Executive Officer</i> jonathan.burke@dca.ca.gov
---	--

Laws and Regulations:

Business and Professions Code §§ 2900–2999
California Code of Regulations, Division 13.6, title 16, §§ 1380-1397.71

Sunset Review:

Last review: 2021 | Next review: 2025

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code section 2946, a psychologist certified or licensed in another state or province who has applied to the Board for a license in California may perform activities and services of a psychological nature without a valid license for a period not to exceed 180 calendar days from the time of submitting his or her application or from the commencement of residency in California, whichever occurs first. Business and Professions Code section 2912 states that nothing in this chapter shall be construed to restrict or prevent a person who is licensed as a psychologist at the doctoral level in another state or territory of the United States or in Canada from offering psychological services in this state for a period not to exceed 30 days in a calendar year.

ACCOMPLISHMENTS

Communications and Outreach

The Enforcement Unit facilitated its first hybrid expert reviewer training. The training consisted of more than 20 experts, and was led by the Office of the Attorney General, Board staff, and DCA's DOI. The biennial training is usually held in Northern and Southern California, but due to COVID-19 concerns, the Board decided to hold a hybrid training. The training was successful, and the Board scheduled a second training for October 2022 for those experts who could not attend the May training.

Updates to Regulations

The Board has published a “Telehealth FAQ” and advisory after the promulgation of its Standards of Practice of Telepsychology regulation. These outreach and education efforts have informed licensees and consumers about increased access to health care services. This regulatory package helped improve access to psychological care for individuals who live in remote areas who, due to illness or mobility issues, cannot leave their homes or require additional support between regularly scheduled office visits. It has also played a role in affording additional opportunities to provide psychological care to underserved populations by providing access to those who may have transportation issues, or who live in areas with few licensees.

Board Leadership

The Board is under new leadership as Dr. Lea Tate became president in January 2022. The former president, Seyron Foo, is now serving as the Board’s vice president.

Updates to Licensing and Enforcement

The Board is working with DCA’s OIO to identify and evaluate program and process efficiencies. The Licensing Unit has reviewed 19 processes in 13 mapping sessions and the Enforcement Unit has completed all of its 35 as-is maps, which provide a visual representation of how the work of the Board is done. Both units will now work with OIO to identify ways to streamline and improve workflow in 2022–23.

NEW LEGISLATION

AB 2754 (Bauer-Kahan, Chapter 163, Statutes of 2022) authorizes registered psychological associates to be supervised in real time, defined as in-person or synchronous audiovisual means, in compliance with federal and state laws related to patient health confidentiality, and allows real time supervision to count toward the supervised professional experience needed to meet the requirements for licensure as a psychologist under the Board. This bill is an urgency measure and took effect immediately upon signing.

SB 401 (Pan, Chapter 298, Statutes of 2022) permits an administrative law judge’s proposed decision to include an order of licensure revocation when there is a finding that a Board licensee has engaged in sexual behavior with a client or a former client during therapy, or within two years of termination of therapy. This bill also defines sexual

behavior as inappropriate contact or communication of a sexual nature for the purpose of arousal, gratification, exploitation, or abuse, excluding appropriate therapeutic interventions related to sexual issues.

SB 1428 (Archuleta, Chapter 622, Statutes of 2022) creates the psychological testing technician registration within the Board, including requirements for applicants and renewals, and specifies related fees.

Laws and Regulations:

Business and Professions Code §§ 11300–11423
California Code of Regulations, title 10, Chapter 6.5, §§ 3500–3761
United States Code, title 12, §§ 3331–3356

Sunset Review:

Last review: 2020 | Next review: 2025

RECIPROCITY

California Business and Professions Code section 11350 states the director shall adopt regulations governing the process and procedure of applying for reciprocity, which shall meet, at a minimum, the requirements of the Appraisal Subcommittee. The California Code of Regulations section 3543 (a)(4) states all applicants must complete, prior to issuance of an initial or reciprocal license, a four-hour course on federal and California appraisal related statutory and regulatory law.

ACCOMPLISHMENTS

Bureau Leadership

In January 2022, Governor Gavin Newsom appointed Angela G. Jemmott as Bureau chief. She had previously served as executive director for the California Commission on Disability Access.

Consumer Protection

The Bureau updated its online complaint system to meet and exceed the requirements established in Assembly Bill 948 (Holden, Chapter 352, Statutes of 2021), by completing the complaint form in January 2022 ahead of schedule. The Bureau has also modified the Real Estate Appraisers’ Licensing and Enforcement Database to ensure licensees in their four-year cycle have completed the education requirements set forth by AB 948; specifically, courses on cultural competency and the elimination of bias.

Communications and Outreach

In June 2022, the Bureau hosted the live online “Appraisal Educational Roundtable—Addressing Cultural Competency and Elimination of Bias.” Beginning January 2023, the Bureau will have new educational requirements for licensure and licensee renewal related to cultural competency and the elimination of bias in appraisal practice. The goal of the educational roundtable was to identify and evaluate best content for instruction of these educational courses as they relate to the real estate appraisal industry. In addition, the roundtable helped the Bureau understand and identify course-specific learning objectives. During this endeavor, the Bureau chief collaborated with DCA, the California Business, Consumer Services and Housing Agency, Department of Real Estate, California Community Colleges Real Estate Education Center-Saddleback, University of Real Estate and Land Use Institute, The Appraisal Foundation’s Appraisal Qualification Board, Interagency Task Force on Property Appraisal and Valuation Equity, and the California Civil Rights Department.

In May 2022, Chief Jemmott attended the Association of Appraiser Regulator Officials (AARO) Spring Conference. AARO facilitates the nation’s administration of appraiser and appraisal management company enforcement and regulatory laws.

In October 2021, Bureau staff gave a virtual presentation for the California Community College Real Estate Education Center’s Annual Conference. The presentation provided current data and an overview of Bureau programs. The Bureau continued to increase its outreach efforts throughout 2022 by accepting opportunities to participate in several conference trainings to assist licensees in understanding AB 948 requirements, increase student awareness of the appraisal industry as a satisfactory career path, and provide access to the Bureau for licensees.

Publication Information

The Bureau published and distributed “The California Appraiser Newsletter” spring edition in May 2022 and published and distributed “The California Appraiser Newsletter” fall/winter 2021 edition in December 2021.

Assessments Conducted

In October 2021, the federal Appraisal Subcommittee completed its State Off-Site Assessment of the Bureau of Real Estate Appraisers and identified no major issues to be addressed.

Technological Advancements

The Bureau deployed a Microsoft Teams telephone system. The Bureau worked closely with DCA’s Telecommunications Unit to develop the system requirements that closely mirror the former telephone system setup. This change in systems allowed the Bureau to reduce the number of telephone lines, provided superior videoconferencing ability, increased monitoring, and provided a more cost effective method of communication.

NEW LEGISLATION

SB 1495 (Committee on Business, Professions and Economic Development, Chapter 511, Statutes of 2022) clarifies the definition of “cultural competency” to more closely align with the functions and duties of the Bureau’s licensees. This will help facilitate the implementation of new cultural competency education requirements for all licenses beginning January 1, 2023.

BOARD HIGHLIGHTS

RECIPROCITY

The Board of Registered Nursing will grant a license to an individual who is licensed in the same profession in another state with no disciplinary action as verified through Nursys (the licensure and disciplinary database with data provided directly from state boards of nursing) and Department of Justice and FBI background checks. The Board will require proof of licensure from that state, transcripts to verify educational preparation, and verification of national certification as needed. No additional steps or licensure requirements such as exams are required.

ACCOMPLISHMENTS

Board Leadership

In May 2022, the Board welcomed Marissa Clark to the executive leadership team as the Chief of Legislative Affairs. She brings her experience of navigating the public policy process from bill introduction through statewide implementation.

Strategic Plan

Overall, the Board met its goals and objectives of its 2018–2021 Strategic Plan. As part of the wind-down efforts, the Board conducted an analysis of its strengths and areas of opportunity for improvement and applied these lessons learned to its 2022–2025 Strategic Plan. Through the implementation of the 2022–2025 Strategic Plan, the Board updated its mission, vision, and values.

Technological Advancements

The Board volunteered to be the first board within DCA

to participate in the DCA Enlighten Licensing Project. This project brings together licensing and information technology subject matter experts from DCA boards and bureaus to identify ways to streamline licensing processes, both internally and externally, for greater efficiencies.

In October 2021, the Board, in collaboration with DCA and the contracted vendor, implemented a new secure education history portal in its database available to the Board-approved precicensure nursing programs. This new portal eliminates the need for schools to submit individual student transcripts and expedites the application process. In addition, it allows students to schedule their National Council Licensure Examination (NCLEX) sooner than in the past. In March 2022, this process was expanded to Board-approved certified nurse-midwife programs and nurse practitioner programs.

In March 2022, the Board implemented the use of Nursys for license verification requests. Nursys provides online verification for endorsement to a nurse requesting to practice in another state and for anyone who wants to verify a nursing license.

The Board has made several other technological advancements and efficiencies, including, but not limited to, implementing a fully electronic case management process in the Enforcement Division, collaborating with DCA's DOI streamlining processes, and emailing deficiency letters rather than using the U.S. Postal Service.

Website Enhancements

In July 2021, the Board removed the requirement for applicants to submit a passport-like photo with their application. This requirement previously resulted in a high number of deficiencies and inquiries to the Board. To reduce processing time frames, the Board removed the requirement for applicants to submit duplicate transcripts and other documentation for reapply/repeat examination applications. In February 2022, the Board began receiving out-of-state applicant transcripts via a “batch job” from the transcript transmission vendor, allowing Board staff to download daily transcripts in a single transaction.

Collaborations

In September 2021, the Board participated in its first joint Continuing Approval Visit (CAV) with the Accreditation Commission for Education in Nursing. This joint effort identified similarities but confirmed the vast differences between an accreditor’s process utilizing an evaluation approach and the role of a regulator who serves as a consultant. In October 2021, the Board aligned future CAVs with accreditation visits and will leverage the accreditor’s review to reduce duplication and increase efficiency where possible.

Updates to Regulations

The Board had regulatory packages approved by the Office of Administrative Law. California Code of Regulations (CCR) 1480, Definitions—Standards for Nurse Practitioners, was approved on December 23, 2021, and CCR 1484, Nurse Practitioner Education, was approved February 8, 2022.

NEW LEGISLATION

AB 2684 (Berman, Chapter 413, Statutes of 2022) is the sunset bill for the Board, which extends the Board’s sunset date to January 1, 2027. It also requires the Board to accept specified information from accreditors; extends statutory state-of-emergency waivers for nursing education programs; establishes a 500-hour minimum direct patient care requirement; codifies the Nursing Education Workforce Advisory Committee; prohibits payments for clinical placements; combines furnishing number applications with other advanced practice applications; removes the governor’s authority to remove board members they did not appoint; requires the Board’s executive officer to create a uniform method for evaluating requests for changes to nursing education programs; and makes other minor and technical changes.

SB 1375 (Atkins, Chapter 631, Statutes of 2022) allows nurse practitioners who are certified for independent practice and certified nurse-midwives to perform abortions by aspiration without standardized procedures. Nurse practitioners not certified to practice independently can still perform abortions by aspiration subject to standardized procedures. This bill also expands available training options to educate nurse practitioners and certified nurse midwives to competently perform abortions by aspiration. This bill prohibits nurse practitioners and certified nurse-midwife trainers from being punished or held liable for damages related to the actions of trainees, and also prohibits performance of an abortion by aspiration after the first trimester of pregnancy.

Sunset Review:

Last review: 2022 | Next review: 2026

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code section 3735, the Board recognizes and accepts the National Board for Respiratory Care’s registered respiratory therapist credential in lieu of passage of the state licensing examinations. However, education requirements must also be met and background checks performed prior to license issuance. Further, verification of licensure, including discipline history, is required from each state where the applicant has been licensed.

ACCOMPLISHMENTS

Sunset Review

The Respiratory Care Board of California underwent its sunset review during 2022. The joint hearing before the Assembly Business and Professions Committee and Senate Business, Professions and Economic Development Committee was held in March 2022, where the Board, represented by President Ricardo Guzman and Executive Officer Stephanie Nunez, answered questions as well as provided written responses to issues raised during the sunset review oversight process.

In addition to extending the Board’s inoperative date to January 1, 2027, Senate Bill 1436 (Roth, Chapter 624, Statutes of 2022), the Board’s sunset extension vehicle: (1) adds additional categories or types of employment that would be subject to mandatory reporting for violations already defined in law, (2) ensures consumers continue to have access to respiratory care in all settings while minimizing the risks in the quality of respiratory care,

and, (3) authorizes the Board to provide a temporary, rapid response beneficial to consumers during a state of emergency.

Studies Conducted

The Board’s Professional Qualifications Committee conducted three study sessions exploring the need to develop an action plan to incorporate a baccalaureate degree provision in the Respiratory Care Practice Act to ensure education requirements meet the demand of the respiratory care field. To be intentional and thoughtful in this process, the committee held study sessions to provide the Board and the public an opportunity to engage in a discovery process prior to developing an action plan for the Board’s consideration.

Updates to Licensing

The Board approved revisions to its Law and Professional Ethics course required for license renewal during every other renewal cycle and prior to initial licensure. The course is aimed at reducing the number of enforcement cases by teaching theories of ethical decision-making as it applies to scope of practice, informed consent, confidentiality, conflicts of interest, unethical acts, and ensuring practitioners understand the laws and regulations governing their profession.

For the fourth straight fiscal year, the Board met all of its established licensing and enforcement performance measure targets.

Updates to Regulations

On August 17, 2021, the Board’s rulemaking package implementing Assembly Bill 2138 (Chiu, Chapter 995, Statutes of 2018) was approved by the Office of Administrative Law (OAL) and put into effect law changes related to substantial relationship and rehabilitation criteria for applicants and licensees.

On April 11, 2022, OAL approved the Board’s rulemaking package related to driving records, military applications, and disciplinary guidelines. This rulemaking package implemented laws passed regarding military personnel and updated the Board’s disciplinary guidelines, all for the benefit of licensees, the public, and other stakeholders.

NEW LEGISLATION

SB 1436 (Roth, Chapter 624, Statutes of 2022) extended the Board’s sunset date until January 1, 2027, and made other reforms and technical changes related to issues raised during the Board’s sunset review by the Legislature.

BUREAU HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Updates to Licensing

The Bureau met its licensing performance measures (application processing times) 96% of the time in 2021–22.

The Bureau released the Occupational Analyses (OA) for the private investigator and private patrol operator qualified managers in May 2002 and September 2021, respectively, which were conducted by DCA's OPES. These OAs provide a description of the practice for the professions and provide the basis for developing valid and legally defensible qualified manager licensing examinations.

Pursuant to Business and Professions Code section 7520.5, the Bureau continued exploring reciprocity agreements with other states to authorize licensed private investigators from another state to continue their investigations in California if the private investigator's home state provides reciprocal authority for California's licensees.

The Bureau worked closely with the National Football League in January and February 2022 to ensure sufficient security was provided for the Super Bowl in Los Angeles.

Military Application Program

In 2021–22, the Bureau processed 6,973 applications identified as belonging to a current or former member of the U.S. military, which brings the total number of

applications processed since the inception of the Bureau’s Veterans Come First Program in 2012 to 84,510. Through this program, the Bureau provides priority services to military applicants and their families via a dedicated email account and specifically assigned staff to assist military members during the licensing process.

Updates to Enforcement

Bureau enforcement staff conducted 335 licensee compliance inspections, a 75% increase from the previous fiscal year, and implemented new processes to account for and investigate the increased number of incident reports generated from private security companies as a result of Assembly Bill 229 (Holden, Chapter 697, Statutes of 2021), which expanded the conditions under which an incident report is to be submitted to the Bureau.

Complaint resolution staff also negotiated \$62,604.00 in savings on behalf of consumers.

The Bureau’s special investigators participated in compliance sweeps with several law enforcement agencies as well as the Department of Cannabis Control, Department of Alcoholic Beverage Control, and the California Department of Insurance.

Communications and Outreach

Bureau Chief Lynne Jensen and Licensing Deputy Chief Gloriela Garcia were guest speakers at the Alarm Company Association conference on December 3, 2021.

The Bureau released a new BreZE feature that sends email communications to applicants/licensees when licenses are issued, are up for renewal, or have been renewed.

NEW LEGISLATION

AB 2043 (Jones-Sawyer, Chapter 768, Statutes of 2022) requires a bail fugitive recovery agent to be licensed by the California Department of Insurance and be bonded and insured in case of injury to consumers, beginning July 1, 2023. Private investigators licensed by the Bureau will be required to hold a separate bail fugitive recovery agent license to engage in bail fugitive recovery activities. This bill requires all bail licensees to complete a 40-hour course covering the power of arrest, certified by the Commission on Peace Officer Standards and Training, and complete continuing education for license renewal.

AB 2515 (Holden, Chapter 287, Statutes of 2022) revises and recasts the requirements for obtaining a baton permit. It makes the Bureau, rather than baton training facilities, the issuing party for baton permits beginning January

1, 2024. Baton permits will now be subject to renewal, expiration, and continuing education requirements. This bill also imposes a new reporting requirement on Proprietary Private Security Employers for instances involving a physical altercation with a member of the public, expands the Bureau’s enforcement authority over those licensees, and extends the deadline for the Bureau to complete the Power to Arrest and Appropriate Use of Force Manual.

Sunset Review:

Last review: 2022 | Next review: 2026

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Consumer Protection

In August 2021, Attorney General Rob Bonta issued a consumer alert on hearing aids sold online or over the counter. This was a collaborative effort between the Attorney General’s Office and the Board. The alert warns Californians to exercise caution when purchasing direct-to-consumer hearing products, such as hearing aids, over the counter or online. The alert also emphasizes the importance of the public educating themselves about their options and considering whether a hearing aid sold online or over the counter, rather than prescribed by a licensed hearing professional, will address their needs.

Sunset Review

In 2021–22, the Board underwent sunset review by the Senate and Assembly Business and Professions Committees, which included a thorough examination of Board operations and its oversight of speech-language pathology, audiology and hearing aid dispensing professionals. As part of this review, the Board delivered a sunset review report detailing information and data pertaining to its leadership, licensing and examinations, enforcement, and legislative and regulatory work over the past four years. In March 2022, the Board provided testimony before the committees, where the Board received supportive comments and accolades from various legislators. As part of its sunset review, the

Board is being reauthorized to continue regulating the professions of speech-language pathology, audiology and hearing aid dispensing, and received various additions and amendments to its Practice Act.

Technological Advancements

In January 2021, the Board was awarded approximately \$400,000.00 from the California Department of Technology’s Technology Modernization Fund (TMF) for the creation of an online system with application, processing, and payment functionality for the Board and its applicants, licensees, and consumers. The TMF provides an opportunity to California state departments to submit business challenges that require an information technology solution to modernize government and improve digital services.

The Board expects that the new online application system will improve the application process and provide applicants with a streamlined application submission and payment method, along with faster processing times. It also will streamline the Board’s process for deficiency notification, and provides frequent updates on the progress of an application throughout the application process. The Board also anticipates that there will be many process improvements for staff that will result in less time waiting for and processing paper documents and the ability to easily communicate with applicants with frequency and efficiency.

During spring 2022, the Board, in coordination with DCA’s OIS, secured external vendor contracts for web services and SimpliGov solution development. In May 2022, the Board, DCA OIS, and external vendors began the development process for the Board’s online system with application, processing, and payment functionality. The Board expects to launch the first two online application types in September 2022.

LEGISLATION

AB 2686 (Berman, Chapter 415, Statutes of 2022) extends the Board’s sunset date until January 1, 2027, and addresses a number of issues raised by the Board during the sunset review process including requiring licensees to provide the Board with their email address, expanding the reasons for which the Board is authorized to take disciplinary action, and requiring aide registrations to be renewed every two years. This bill also changes the licensing requirements for audiologists by clarifying that the required clinical practice must be under the direction

of an audiology doctoral program and removing the requirement that the required professional experience must follow the completion of the didactic and clinical rotation requirements. This bill also revises the process for licensees seeking to petition the Board for reinstatement or modification of penalty. Additionally, the bill removes the statutory requirement and membership for the Hearing Aid Dispensing Committee.

SB 1453 (Ochoa Bogh, Chapter 450, Statutes of 2022) clarifies the requirements necessary for a licensed speech-language pathologist to perform a flexible fiber optic transnasal endoscopic procedure and allows for that procedure to be performed in certain medical settings based on the patient’s needs, as specified. This bill also requires a licensed speech-language pathologist conducting the procedure on a patient who has contraindications, as specified, to consult with a physician and obtain and document clearance that they can safely perform the procedure.

California Code of Regulations, Division 19, title 16, §§ 1900–1999.5

Sunset Review:

Last review: 2018 | Next review: 2023

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

The Board elected Kyle Finley as president and reelected Derek Devermont as vice president at its October 2021 meeting. Additionally, Executive Officer Susan Saylor retired from state service effective April 2022. The Board hired Sophia Cornejo as executive officer. She previously served as assistant executive officer of the California State Athletic Commission.

Consumer Protection

The Board continued its financial support of the following research projects it selected for funding at its July 2018 meeting: Improving Urban Pest Ants Management by Low Impact IPM Strategies; Development and Evaluation of Baiting Strategies for Control of Pest Yellowjackets in California; Investigation of Rodenticide Pathways in an Urban System Through the Use of Isotopically Labelled Bait; Diet and Colony Structure of Two Emerging Invasive Pest Ants; and Evaluation of Bait Station System Efficacy for Reduced Risk Subterranean Termite Management in California. These projects will improve understanding of invasive pest populations and benefit both consumers and licensed pest-control professionals.

Additionally, the Board began the rule-making process to clarify consumer notice requirements related to the application of pesticides to, within, and around commercial, residential, and industrial structures. These

clarifications will benefit both consumers and pest-control professionals by helping to ensure clear communication between consumers and companies whenever pesticide applications occur.

NEW LEGISLATION

AB 2452 (Chen, Chapter 235, Statutes of 2022) extends the sunset date for the Structural Fumigation Program under the Department of Pesticide Regulation until January 1, 2024. It also removes San Diego County from the program.

SB 1064 (Newman, Chapter 190, Statutes of 2022) prohibits the Board from issuing, reinstating, or continuing to maintain a structural pest control operator company registration unless the applicant or existing company has filed a certificate of workers’ compensation insurance as evidence of current and valid insurance coverage. This bill requires the insurer to report the company name, registration number, policy number, dates that coverage is scheduled to commence and lapse, and cancellation date, to the Board.

Sunset Review:

Last review: 2021 | Next review: 2025

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Updates to Enforcement

The Board merged its inspection and enforcement units, which significantly streamlined the inspection process, removed redundancies, and eliminated confusion. All enforcement duty statements were updated to include all enforcement and inspection duties, and enforcement staff were cross-trained to perform all enforcement-related duties.

The Enforcement Unit merger added 50% more analysts to the unit (an increase from 10 people to 15) without incurring any additional Board resources. As a result, the Board closed over 150% more desk investigations and conducted roughly 21% more inspections compared to the last fiscal year.

Further, the Board worked with DCA’s Enforcement User Group to improve the way pending cases and case activities are assigned and displayed on each user’s dashboard. This improvement enhances the effectiveness of the dashboard by enabling the user to only see the actual cases assigned rather than having a case displayed multiple times with each case activity.

Due to significant cost savings related to streamlined enforcement processes, the Board hired four limited term positions to assist with the Board’s pending enforcement backlog without spending any additional Board resources.

Collaborations

During the last half of the fiscal year, the Board, in collaboration with DCA and two other boards, applied for and was awarded a \$600,000.00 grant from the California Department of Technology’s Technology Modernization Fund to fund the development of a mobile inspection application. This application, once implemented, will significantly streamline the inspection process for licensees, inspectors, and Board staff.

Over the last year, the Board submitted 89 BreEZe Maintenance and Operations (BMO) requests to improve the BreEZe system and data integrity, enhance inspection tracking, and implement Assembly Bill (AB) 1535 (Committee on Business and Professions, Chapter 631, Statutes of 2021). These BMOs included various data patches to correct data entry errors, remove and add business rules, update client text instructions for clarity, combine and eliminate transactions, update workflows, and update the enforcement module.

Communications and Outreach

With the assistance of DCA’s OIS, the Board fully transitioned its phone system to Microsoft Teams and launched a new routing system to better serve its stakeholders. This enhancement increased access to Board staff, decreased response times in assisting callers, and resulted in fewer voicemails from applicants, licensees, consumers, and other stakeholders.

Updates to Legislation and Regulations

Through a Budget Change Proposal (BCP), the Board successfully received a budget augmentation of \$167,000.00 for fiscal year 2022–23 and \$152,000.00 for 2023–24 from the General Fund for a limited-term analyst position and the required development and training costs necessary to address additional workload and regulations related to the implementation of AB 1282 (Bloom, Chapter 752, Statutes of 2021).

The Board had three significant rule-making packages approved by the Office of Administrative Law within the last fiscal year. These rule-making packages updated the Board’s Disciplinary Guidelines, and created new regulations addressing animal physical rehabilitation and drug compounding within a veterinary premises.

NEW LEGISLATION

AB 1885 (Kalra, Chapter 389, Statutes of 2022) allows veterinarians to recommend cannabis for use on animal patients; requires the Board to adopt guidelines for veterinarians to use when recommending cannabis and post those guidelines to their website by January 1, 2024; includes cannabis products intended for use on an animal in the definition of cannabis products; and requires any cannabis products intended for use by an animal to conform with any additional standards or regulations

established by the Department of Cannabis Control, which the bill requires be promulgated no later than July 1, 2025.

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code section 2872.1, the Board, upon receiving a written application and required fees, may issue a license to any applicant who possesses a valid unrevoked license as a vocational or practical nurse issued by any other state or foreign country, and who in the opinion of the Board meets all the other requirements. Pursuant to Business and Professions Code section 4515, the Board, upon receiving a written application and required fees, may issue a license to any applicant who possesses a valid unrevoked license as a psychiatric technician issued by any other state or foreign country, and who in the opinion of the Board meets all the other requirements.

ACCOMPLISHMENTS

Board Meetings

The Board continued to meet via teleconference during fiscal year 2021–22. Members of the public, including representatives from schools, stakeholder organizations, and other governmental entities attended and were able to participate in the Board's proceedings.

Sunset Review

The Board's sunset bill, Assembly Bill 1536 (Committee on Business and Professions, Chapter 632, Statutes of 2021) extended the Board's authorization by three years, and restored the Board's authority to select an executive officer.

Updates to Enforcement

The Enforcement Division reduced the average time to assign/close a case at intake from an average of four days at the start of 2020–21 to two days at the end of the fiscal year. The division began the fiscal year with 1,144 cases pending and ended the year with 893 cases pending. The division completed 1,795 cases in the fiscal year and closed 78% of its cases within the target average of 360 days.

The Enforcement Division also collaborated with DCA’s DOI on multiple cases. In one such case, an arrest was made of a person who was impersonating a licensed vocational nurse (LVN) on multiple occasions and used the LVN’s license to fraudulently work as an LVN.

Updates to Regulations

AB 1536 directed the Board to establish an approval process for proposed schools with specified timelines and authorized the Board to assess program application and approval fees. The Board adopted emergency regulations to implement the program approval processes and fees, and this regulatory package was approved by the Office of Administrative Law on June 27, 2022.

Updates to Licensing

The Licensing Division streamlined training and increased efficiencies, improving its customer service by maintaining consistently low application processing times, high caller assistance rates, and low caller wait times.

The sunset bill also required applicants and licensees to provide the Board a physical mailing address and an email address by July 1, 2022, and unless an applicant specifies in writing a preference for regular mail, requires the Board to direct all license-related correspondence to applicants and licensees using the email address on file.

NEW LEGISLATION

SB 994 (Jones, Chapter 713, Statutes of 2022) revises the definition of licensed vocational nurses to include individuals practicing under the direction of a naturopathic doctor, as specified. The bill requires naturopathic doctors who supervise licensed vocational nurses to establish a written supervision protocol, listing the practice agreement, describing the duties and responsibilities of the licensed vocational nurse, and identifying the procedure or protocol for furnishing or ordering drugs, if applicable to the naturopathic doctor’s practice. The written supervision shall contain additional criteria, as specified. This bill also prohibits licensed vocational nurses from performing specified cosmetic procedures and unsupervised intravenous therapies.

SB 1436 (Roth, Chapter 624, Statutes of 2022), among other things, allows licensed vocational nurses to perform certain respiratory tasks under specified conditions, including completing a patient-specific training by their employer. It also requires the Board to share all complaints and information related to investigations involving respiratory care services with the Respiratory Care Board of California.

ASSEMBLY BILL 2138

The following data is provided in compliance with Business and Professions Code sections 480(g)(2) and 480(g)(3), which require all boards, bureaus, and committees under DCA (other than the California State Athletic Commission and the Bureau for Private Postsecondary Education) to annually report the following information:

- (A) The number of applicants with a criminal record who received notice of denial or disqualification of licensure.
- (B) The number of applicants with a criminal record who provided evidence of mitigation or rehabilitation.

- (C) The number of applicants with a criminal record who appealed any denial or disqualification of licensure.
- (D) The final disposition and demographic information, consisting of voluntarily provided information on race or gender, of any applicant described in subparagraph (A), (B), or (C).

Note: Not all DCA boards and bureaus require fingerprinting. Applicants may voluntarily provide evidence of mitigation. Case outcomes may include cases that carried over from prior years, including licensing and demographic data.

MILITARY LICENSURE

The following data is provided in compliance with Business and Professions Code section 115.8, which requires all boards, bureaus, committees, and commissions under DCA to annually report the following information:

- (A) The number of applications for a temporary license submitted by active-duty service members, veterans, or military spouses.*
- (B) The number of applications for expedited licenses submitted by veterans and active-duty spouses.

- (C) The number of licenses issued and denied.
- (D) The number of licenses issued.
- (E) The number of applications for waived renewal fees received and granted.
- (F) The average length of time between application and issuance of licenses.

* Note: Data relating to temporary licenses issued under Business and Professions Code section 115.6 will be included once those go into effect after July 1, 2023.

¹ Licenses denied do not include applications that are abandoned. An application is abandoned when the applicant is notified of a deficiency and that deficiency is not resolved in the given period of time set by statute or regulation, which leads to abandonment and closure of the application.

² Complete applications are applications without any deficiencies, such as missing documents necessary for licensure.

³ Waivers approved may not match renewal requests received as some requests are not approved in the same fiscal year, documentation of military orders may not have been received and the request is pending, or the licensee may have withdrawn the request. Renewal waivers are never denied as long as orders are provided with the renewal request.

¹ Licenses denied do not include applications that are abandoned. An application is abandoned when the applicant is notified of a deficiency and that deficiency is not resolved in the given period of time set by statute or regulation, which leads to abandonment and closure of the application.

² Complete applications are applications without any deficiencies, such as missing documents necessary for licensure.

³ Waivers approved may not match renewal requests received as some requests are not approved in the same fiscal year, documentation of military orders may not have been received and the request is pending, or the licensee may have withdrawn the request. Renewal waivers are never denied as long as orders are provided with the renewal request.

⁴ BSIS Military Data updated April 2023 to reflect accurate data.

SECTION 139

The following data is provided in compliance with Business and Professions Code section 139. Section 139 requires that every licensure examination under DCA be based on a valid occupational analysis (OA). It also requires that every licensure examination be periodically evaluated for validity, reliability, fairness, and legal defensibility. To ensure that these requirements are met, section 139(c) requires all boards, bureaus, and committees under DCA to report the following information:

- (A) The legislative and regulatory authority for the prerequisites to take the examination, and how often these prerequisites are assessed.
- (B) The year of the most recent OA of the licensed profession, and the year of the OA on which the current examination is based.
- (C) The method for setting the passing score for the examination.
- (D) Whether examination items (questions) are periodically analyzed.
- (E) Direct costs in the previous fiscal year for OAs, examination development, examination administration, and licensure examination program evaluation.

SECTION 139														
EXAMINATION PROGRAM			PREREQUISITES ¹ FOR ADMITTANCE TO THE EXAMINATION			EXAMINATION VALIDATION ² OA = OCCUPATIONAL ANALYSIS					COSTS (IN THOUSANDS) ³ ED = EXAMINATION DEVELOPMENT EA = EXAMINATION ADMINISTRATION PE = PROGRAM EVALUATION PO = PER OCCURRENCE PY = PER YEAR

		CALIFORNIA SUPPLEMENTAL EXAMINATION	5550 5552				2020		2020	MODIFIED ANGOFF/IRT EQUATING	X	\$5	\$131	\$188

¹ Prerequisites for admittance to the examination are mandated by Business and Professions Code and/or California Code of Regulations (CCR) and assessed using a number of methods, including national standards and regulatory review. CCR codes are title 16 unless otherwise indicated.

² Methods used to establish passing scores vary across examination administrations and are based on minimum competence criteria necessary for licensure.

³ Included are costs for personnel required to perform these functions.

⁴ The date in the "OA Year Current Exam is Based" column may be earlier than the date in the "Year of Most Recent OA" column. The current examination may be based on the OA preceding the most recent OA. It takes a significant amount of time to update an examination after a new OA is completed.

⁵ The Modified Angoff Method is a criterion-referenced method for setting the passing score of an examination. Licensed practitioners establish a minimally acceptable level of competence for safe practice that candidates must possess to pass the examination. By applying a criterion-referenced methodology, a passing score is set lower for an examination containing many difficult items (questions) and set higher for an examination containing a small number of difficult items. The Modified Angoff Method is the most common method used for licensure examinations.

⁶ IRT stands for Item Response Theory, a statistical method for estimating the difficulty of examination items (questions) and of examinations. For licensure examination programs that meet certain parameters, IRT can be used to set the passing score for the examination after a Modified Angoff Method has been used to set the criterion.

¹ Prerequisites for admittance to the examination are mandated by Business and Professions Code and/or California Code of Regulations (CCR) and assessed using a number of methods, including national standards and regulatory review. CCR codes are title 16 unless otherwise indicated.

² Methods used to establish passing scores vary across examination administrations and are based on minimum competence criteria necessary for licensure.

³ Included are costs for personnel required to perform these functions.

⁴ The date in the "OA Year Current Exam is Based" column may be earlier than the date in the "Year of Most Recent OA" column. The current examination may be based on the OA preceding the most recent OA. It takes a significant amount of time to update an examination after a new OA is completed.

⁵ This national exam is comprised of two components, but is considered one exam.

FUND CONDITIONS

The following information summarizes the operations of a fund for the prior fiscal year. The display includes the beginning fund balance and details all revenues, expenditures, and transfers impacting the fund, and reports the final fund reserve. Also included are the estimated Months-in-Reserve for each fund, based on the ending balance.
